*EBOOK: Introduction to Mass Communication: Media Literacy and Culture* BARAN, STANLEY, 2011-02-16 EBOOK  
Introduction to Mass Communication Media Literacy and Culture *Learning, Teaching, and Social Media* Andrew McWhirter, 2024-01-31 Employing a unique generational approach this book critically assesses social media in educational contexts across all educational levels from primary and secondary schools to further and higher education proposing a schema for social media literacy SML Using research obtained from fieldwork observations conducted in online teaching groups surveys and in depth interviews with teachers and educators on the topic of social media and education chapters interrogate the historical relationship between educator and learner and use the frame of expert methodology to understand what educators themselves consider important about social media and education relative to their sectors Bringing together current literature from education learning and media technologies along with longstanding debates around technological influence chapters also draw on audience and communication studies psychology and arts and humanities at a time when many different disciplines are trying to understand what social media means to our society This interdisciplinary volume will be of great interest to academics researchers and postgraduates in the fields of technology in education media literacy and critical digital media Practitioners involved in the sociology of education will also find the book of use **Media Literacy** W. James Potter, 2013 This book offers a detailed approach to studying media influences and presents a vision of what it means to operate at a higher level of media literacy The author argues that media have a profound influence on the way we perceive the world shaping our beliefs and expectations By becoming more media literate we can avoid the potentially negative effects of those media messages as well as amplify the potentially positive effects Topics covered include content audience media industries media ownership privacy violence sports social media and piracy of media messages *China's eBook Evolution* Xiang Ren, 2024-06-30 This Element explores the changing landscape of eBook businesses and cultures in China in the past two decades and examines how disruptive innovation and the platform economy have transformed one of the world's largest book markets Through an evolutionary perspective this Element documents and analyses the emergence growth and refinement of disruptive models in three areas of trade publishing including free eBook developments digital self publishing and platformed social reading It offers a critical account of the complex interplay between emerging technologies business innovations and book cultures and conceptualises China's eBook evolution as both a part of global digital publishing transformation in the platform age and an embodiment of local dynamics in a transitional society This Element is essential for scholars students publishers and the interested public to understand China's digital publishing innovations and their global implications *Teaching for Equity, Justice, and Antiracism with Digital Literacy Practices* Meghan E. Barnes, Rick Marlatt, 2024-05-30 To embrace today's culturally and linguistically diverse secondary English Language Arts ELA classrooms this text presents ways in which teachers can use digital tools in the service of antiracist teaching and developing equity

oriented mindsets in teaching and learning Addressing how the use of digital tools and literacy practices can be woven into current ELA curricula and with consistent sections each chapter covers a different aspect of digital tool use including multimodal texts critical media literacies connection building and digital composing Understanding that no classroom is a monolith Barnes and Marlatt s timely text presents practical applications and resources suitable for different environments including urban and rural contexts The volume is essential reading in courses on ELA literacy methods and multicultural education

The Ethics of Digital Literacy Kristen Hawley Turner,2019-12-31 The digital era has brought many opportunities and many challenges to teachers and students at all levels Underlying questions about how technologies have changed the ways individuals read write and interact are questions about the ethics of participation in a digital world As users consume and create seemingly infinite content what are the moral guidelines that must be considered How do we teach students to be responsible ethical citizens in a digital world This book shares practices across levels from teaching elementary students to adults in an effort to explore these questions It is organized into five sections that address the following aspects of teaching ethics in a digital world ethical contexts ethical selves ethical communities ethical stances and ethical practices

Handbook of Research in Educational Communications and Technology M. J. Bishop,Elizabeth Boling,Jan Elen,Vanessa Svihla,2020-09-21 The 5th edition of the prestigious AECT Handbook continues previous efforts to reach outside the traditional instructional design and technology community to the learning sciences and computer information systems communities toward developing a conceptualization of the field However given the pervasive and increasingly complex role technology now plays in education since the 1st edition of the Handbook in 1996 the editors have reorganized the research chapters in this edition to focus on the learning problems we are trying to solve with educational technologies rather than to focus on the things we are using to solve those problems Additionally for the first time this edition of the Handbook reflects our field s growing understanding of the importance of design scholarship to inform practice by including design case chapters These changes for this edition of the Handbook are intended to bring educational technology research into the broader framework of educational research by elaborating on the role instructional design and technology plays as a scholarly discipline in addressing education s increasingly complex issues Provides comprehensive reviews of new developments in educational technology research and design practice Includes concrete examples to guide future research and practice in the ways emerging technologies can be used to solve educational problems Contains extensive references furnished to guide readers to the most recent research and design practice in the field of instructional design and technology
