It is the only text and atlas of gross anatomy that illustrates all structures using high quality dissection photographs and clearly labeled line drawings for each photo. Plus concise yet thorough text supports and explains all key human anatomy. High quality richly colored dissection photographs showing structures most likely to be seen and tested in the lab improve your ability to recognize and interpret gross specimens accurately. Interpretive line drawings next to every photograph let you test your knowledge by covering the labels. Color coding on interpretive artwork helps you differentiate among fat, muscle, ligament, etc. Clinical Skills pages help you understand how to apply knowledge of gross anatomy to the clinical setting. More clinical comments throughout the text further clarify anatomical drawings and photographs. Cross sections added to the upper and lower limb sections increase your knowledge base.
