A. A club called the Graffiti Grapplers won't stand for a mess—especially not in their hometown of San Antonio, Texas. The group of teachers and kids paint over graffiti and sweep up litter in their community.

Since the club was founded in 1993, the Grapplers have won many awards. One year, they won \$32,500! The club members use the money they receive for projects such as planting trees and flowers around San Antonio.

"These kids have good hearts," Grappler and teacher Linda Pruski said. "They are seeing the positive effect they can have on the community."

This book is a one stop guide to all your research methods needs. It is tailored specifically towards business and management courses and central to this edition is the balanced coverage of qualitative and quantitative methods to clearly and concisely lead students through the research process whatever their project may be. Now in its much anticipated fifth edition, *Business Research Methods* has been revised and updated to reflect all the latest trends in research methodology. The integration of statistical issues as well as coverage of web based surveys, qualitative interviews, big data and content analysis of social media aims to support the current student experience. A Running Case Study charts the progression of two student research projects, one qualitative and one quantitative, and shows how the content of each chapter can be used to develop their projects. Thought provoking questions are included to help students consider the issues and decisions involved and how these might be applied to their own project. Deeper Insight into Research Methods boxes delve further into particular research issues offering a detailed description to increase understanding of these areas whilst Real Life examples put research methods into context by showing how they have been applied in real world situations. New pedagogy features include Research in Practice boxes provide an insight into situations and research decisions that students may encounter in real life projects. They contain hints, tips and sometimes questions to help think through a project. Theory Explained highlights key theories and demonstrates how these can be applied in practical research examples. Statistics in Action provides practical alternatives to qualitative research methods and gives examples of how statistical data can be presented, analyzed and interpreted to improve students' data insights skills. The Online Learning Centre contains a vast amount of extra resources to support lecturers and students including power points, instructor manuals and a question bank. New to this edition are short case studies with teaching notes covering current topics and key theories and worked examples and videos with associated questions for further practical exercises and real world examples.
