

Step 3

Connect Refrigerant Pipes

Insulate the Pipes: Carefully unroll and insulate the copper pipes provided in the installation kit.

Attach Pipes to Indoor Unit: Connect the copper pipes to the indoor unit's refrigerant line. Tighten the connections with a wrench, ensuring no gas leakage.

Route Pipes Through Wall: Feed the pipes and electrical wiring through the pre-drilled hole, ensuring they are securely anchored to avoid movement.

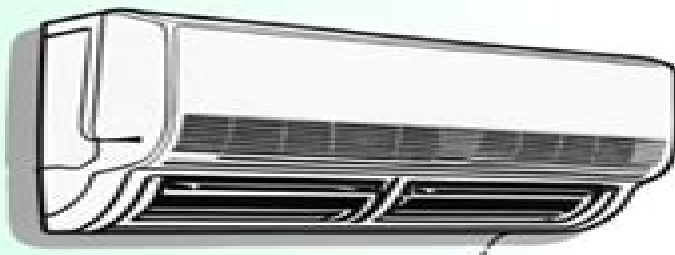

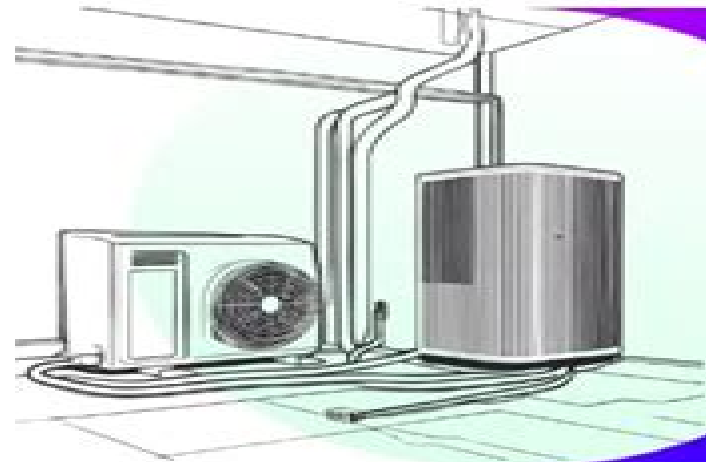

Attach Pipes to Outdoor Unit: Connect the other end of the copper pipes to the outdoor unit's refrigerant ports.

Step 4

Install the Drain Hose

Attach Hose to Indoor Unit: Secure the flexible drain hose to the drain port of the indoor unit.

Route Hose: Run the hose along with the refrigerant pipes through the wall hole. Ensure the hose is sloped downward to allow for water drainage away from the building.

Step 5

Seal the Hole

Use the provided sealing tape to cover the gap around the pipes and drain hose where they pass through the wall. This will prevent air leakage and keep the installation secure.

Air Conditioners Installation Manual

Rachel Sandford

Air Conditioners Installation Manual:

Getting the books **Air Conditioners Installation Manual** now is not type of challenging means. You could not by yourself going later books increase or library or borrowing from your contacts to entrance them. This is an no question simple means to specifically get lead by on-line. This online declaration Air Conditioners Installation Manual can be one of the options to accompany you past having extra time.

It will not waste your time. undertake me, the e-book will entirely tune you other event to read. Just invest tiny get older to entrance this on-line proclamation **Air Conditioners Installation Manual** as with ease as evaluation them wherever you are now.
