Air Rage

(A) The first recorded case of an airline passenger turning seriously violent during a flight, a phenomenon now widely known as "air rage", happened in 1947 on a flight from Havana to Miami. These are extreme examples and cases of air rage more commonly result in physical assaults on fellow passengers and crew such as throwing objects, punching, stabbing or scolding with hot coffee.

(D) The causes of air rage are not known for certain, but it is generally thought that factors include: passenger behavior and personality, the
