Airgun Fieldcraft Ian Barnett,2016-08-07 Do you like me gauge your normal life via a watch or clock with British Standard Time applied A wild creature won t It will follow the angle of the sun the rise of the moon the direction of the breeze the temperature of the day or night It will note the budding and the fall of the leaf the height of the crop and the ripeness of the fruit It will sense the breeding cycle of its mate the primeval need to mate and consequently the feeding and protection of its young It will rely on its knowledge of the prominence of its prey and the existence of its own predators It will live and breathe with a cautious eye at all times fixed on simply surviving each day To be a hunter you need to learn all these things that make wild creatures tick When I put aside the clock to ignore time pressures when I pick up the camera to record a wild creature when I sit in deep cover watching quarry with a gun when I shoot a wild creature a pest species I put aside my normal life I am in a different life with different nominal values and different priorities It is a life I often prefer over my normal life for it is deep pure precarious colourful exhilarating unpredictable non committal and forgiving When I m out there with a gun there is no one to criticise me but me The only expectations are mine Throughout this book I will frequently use an archaic and endearing term Mother Nature For I can think of no other term to describe the Tao the intangible spirit that wraps itself around both man and beast in the wild Mother Nature influences birth and death season and weather dominance and subservience all in equal measure What she gives she also takes away in fair balance She I use the feminine deliberately for only a female could be so devastatingly beautiful and bountiful yet at times so viciously cruel This book isn t just for the air rifle hunter It is for anyone who roams the countryside attending to vermin in the interest of crop protection and conservation It is for the boy with the catapult for that s where I started and for the mature adult stepping onto the hunting trail late in life It doesn t matter what tool you carry the fieldcraft needed is the same But if I convince you by the time you reach the end of this book that the air rifle is a wonderful tool and capable of many tasks then it s been well worth
