It includes the writings and perspectives of high school students, high school teachers, preservice teacher candidates, doctoral students in mathematics education, and other fields; mathematics teacher educators and other education faculty. As a whole, this case study provides an opportunity to reflect on reform visions of mathematics for all students and the challenges inherent in the implementation of these visions in US schools. It challenges us to rethink boundaries between theory and practice and the relative roles of teachers and university faculty in educational endeavors **Forthcoming Books** Rose Arny, 2003
