change are explored in different geocultural settings and epochs being most visible in the centuries surrounding the Maya collapse and following the cultural clash implied by the European conquest These glimpses on the Mesoamerican past through head practices are novel as is the general treatment of methodology and theoretical frames Although it is anchored in physical anthropology and archaeology specifically bioarchaeology this volume also integrates knowledge derived from anatomy and human physiology historical and iconographic sources linguistics polisemia and ethnography The scope of this work is rounded up by the transcription and interpretation of the many colonial eye witness accounts on indigenous head treatments in Mesoamerica and beyond
