YOU: The Owner's Manual for Teens Michael F. Roizen, Mehmet Oz, 2011-06-07 A few years ago we wrote *YOU The Owner s Manual* which taught people about the inner workings of their bodies and how to keep them running strong But you know what There s a big difference between an adult s body and your body between adults health mysteries and your health mysteries between their questions and your questions So teens this book is for YOU We ll talk to you about the biological changes that are happening in your brain and your body We ll show you how to get more energy improve your grades protect your skin salvage more sleep get fit eat well maximize your relationships make decisions about sex and so much more In fact in these pages we answer hundreds of your most pressing health related questions And you know what else We are going to treat you like adults in one very important way We re not going to preach We re going to give you straight up information that you can use to make smart choices about how to live the good life and enjoy every second of it Starting right now

Computer-Aided Reasoning Matt Kaufmann, Panagiotis Manolios, J Strother Moore, 2013-04-17 Computer Aided Reasoning ACL2 Case Studies illustrates how the computer aided reasoning system ACL2 can be used in productive and innovative ways to design build and maintain hardware and software systems Included here are technical papers written by twenty one contributors that report on self contained case studies some of which are sanitized industrial projects The papers deal with a wide variety of ideas including floating point arithmetic microprocessor simulation model checking symbolic trajectory evaluation compilation proof checking real analysis and several others Computer Aided Reasoning ACL2 Case Studies is meant for two audiences those looking for innovative ways to design build and maintain hardware and software systems faster and more reliably and those wishing to learn how to do this The former audience includes project managers and students in survey oriented courses The latter audience includes students and professionals pursuing rigorous approaches to hardware and software engineering or formal methods Computer Aided Reasoning ACL2 Case Studies can be used in graduate and upper division undergraduate courses on Software Engineering Formal Methods Hardware Design Theory of Computation Artificial Intelligence and Automated Reasoning The book is divided into two parts Part I begins with a discussion of the effort involved in using ACL2 It also contains a brief introduction to the ACL2 logic and its mechanization which is intended to give the reader sufficient background to read the case studies A more thorough textbook introduction to ACL2 may be found in the companion book *Computer Aided Reasoning An Approach* The heart of the book is Part II where the case studies are presented The case studies contain exercises whose solutions are on the Web In addition the complete ACL2 scripts necessary to formalize the models and prove all the properties discussed are on the Web For example when we say that one of the case studies formalizes a floating point multiplier and proves it correct we mean that not only can you read an English description of the model and how it was proved correct but you can obtain the entire formal content of the project and replay the proofs if you wish with your copy of ACL2 ACL2 may be obtained from its home page The results

reported in each case study as ACL2 input scripts as well as exercise solutions for both books are available from this page
