Teacher's Choice Math Regents Review Henry Gu, 2010-03-12 Less is more When students have only six to eight weeks to review for the Regents exam and they have to remember so many topics what can the teacher offer to help They won't be able to review the 800 page textbooks or even the 400 page review books Our students need an efficient review kit that is concise yet contains all the important mathematical concepts and their applications This book will help students remember all the key topics and build their problem solving skills through the use of examples This review book is geared towards helping students succeed with high scores on the Regents exams I have already used these review sheets with my own Regents classes and I have seen firsthand that their performance is significantly higher than the statewide average Both teachers and students like these review sheets because they are practical This book contains three courses in one Integrated Algebra 1 Geometry and Algebra 2 Trigonometry It also serves as a handy reference guide for math teachers and college students

Algebra and Trigonometry Cynthia Y. Young, 2021-08-31 Cynthia Young's Algebra and Trigonometry Fifth Edition allows students to take the guesswork out of studying by providing them with an easy to read and clear roadmap what to do how to do it and whether they did it right With this revision Cynthia Young revised the text with a focus on the most difficult topics in Trigonometry with a goal to bring more clarity to those learning objectives Algebra and Trigonometry Fifth Edition is written in a voice that speaks to students and mirrors how instructors communicate in lecture Young's hallmark pedagogy enables students to become independent successful learners Key features like Parallel Words and Math and Catch the Mistake exercises are taken directly from classroom experience and keeps the learning fresh and motivating

EBOOK: College Algebra with Trigonometry Raymond Barnett, Michael Ziegler, Karl Byleen, David Sobecki, 2010-03-16 Barnett Ziegler Byleen and Sobecki's College Algebra with Trigonometry text is designed to be user friendly and to maximize student comprehension by emphasizing computational skills ideas and problem solving as opposed to mathematical theory The large number of pedagogical devices employed in this text will guide a student through the course Integrated throughout the text students and instructors will find Explore Discuss boxes which encourage students to think critically about mathematical concepts In each section the worked examples are followed by matched problems that reinforce the concept being taught In addition the text contains an abundance of exercises and applications that will convince students that math is useful A MathZone site featuring algorithmic exercises videos and other resources accompanies the text
