address the issues technology professionals face every day They provide examples practical solutions and expert education in new technologies all designed to help programmers do a better job This book is also available as part of the 4 book JavaScript and Ajax Wrox Box ISBN 0470227818 This 4 book set includes Professional JavaScript for Web Developers ISBN 0764579088 Professional Ajax 2nd edition ISBN 0470109491 Professional Web 2.0 Programming ISBN 0470087889 Professional Rich Internet Applications Ajax and Beyond ISBN 0470082801 *Php Web 2.0 Mashup Projects* Shu-Wai Chow,2007-09-13 Create practical mashups in PHP grabbing and mixing data from Google Maps Flickr Amazon YouTube MSN Search Yahoo Last fm and 411Sync com **Wicked Cool PHP** William Steinmetz,2008 Rather than explain the basics of PHP this guide provides scripts that can be implemented immediately to make programmers lives easier Included are scripts for processing credit cards getting live shipping quotes and accepting PayPal payments online *PHP Cookbook* O'Reilly,2012-10 **A Primer of GIS, Second Edition** Francis Harvey,2015-10-28 This accessible text prepares students to understand and work with geographic information systems GIS offering a detailed introduction to essential theories concepts and skills The book is organized in four modular parts that can be used in any sequence in entry level and more specialized courses Basic cartographic principles are integrated with up to date discussions of GIS technologies and applications Coverage includes everything from what geographic information is to its many uses and societal implications Practical examples and exercises invite readers to explore the choices involved in producing reliable maps and other forms of geographic information Illustrations include 170 figures with 15 in color The companion website provides links to Web resources for each chapter plus downloadable PowerPoint slides of most of the figures New to This Edition Chapter on online mapping and Big Data New and updated discussions of remote sensing vector and raster data models location privacy uses of geocoding and other timely topics Chapter on the many uses of GIS such as in market analyses emergency responding and tracking of epidemics Section overviews and an end of book glossary Pedagogical Features Modules and individual chapters can be used sequentially or in any order End of chapter review questions with answers exercises and extended exercises for applying theories and concepts In Depth sidebars offering a closer look at key concepts and applications End of chapter links to relevant Web resources **Google Hacks** Tara Calishain,Rael Dornfest,2003 Explains how to take advantage of Google s user interface discussing how to filter results use Google s special services integrate Google applications into a Web site or Weblog write information retrieval programs and play games **Designing Web-Based Applications for 21st Century Writing Classrooms** George Pullman,Gu Baotong,2016-12-05 Designing Web Based Applications for 21st Century Writing Classrooms brings together for the first time a group of scholars and teachers who have been developing on their own initiative web based solutions to technical and professional writing instructional problems In industry the perennial question is whether to buy or build but in academia for various reasons buy is rarely an option Individual faculty members do not have the money to pay for software solutions and often their interests are too local or small scale to warrant institutional level

involvement In addition the design of commercial applications from vendors typically does not take into account the unique needs and considerations of teachers of writing and often reflects a design ideology quite different from theirs This is why so many writing teachers have turned to open source solutions and in the process of learning how to tweak them to make them more responsive to their specific needs why so many of these teachers have developed programming and design skills Beyond exigency the motivation for becoming proficient at interface and database design comes from the observation that the nature of writing is changing dramatically Text is no longer an object It has become a place of interaction consumers are becoming producers And the work of technical and professional communication indeed the work of writing teachers more generally is becoming increasingly involved in the design and implementation of places of interaction Words have become data texts are becoming communities
