Controversy of the Ages Theodore Cabal, Peter Rasor, II, 2018-08-08 Controversy of the Ages carefully analyzes the debate by giving it perspective Rather than offering arguments for or against a particular viewpoint on the age of the earth the authors take a step back in order to put the debate in historical and theological context The authors of this book demonstrate from the history of theology and science controversy that believers are entitled to differ over this issue while still taking a stand against theistic evolution But by carefully and constructively breaking down the controversy bit by bit they show why the age issue is the wrong place to draw a line in the sand

Trollinger, William Vance Trollinger, 2016-05-15 In *Righting America at the Creation Museum* Susan L. Trollinger and William Vance Trollinger Jr take readers on a fascinating tour of the museum. The Trollingers vividly describe and analyze its vast array of exhibits, placards, dioramas, and videos from the Culture in Crisis Room where videos depict sinful characters watching pornography or considering abortion to the National Selection Room where placards argue that natural selection doesn't lead to evolution. The book also traces the rise of creationism and the history of fundamentalism in America. **The Secret in the Backpack** Sharon Zoller, 2025-09-02 Has your faith in God been damaged by what you've been taught in science? In *The Secret in the Backpack* author Sharon Zoller presents information to breathe new life into your faith, demonstrating that school textbooks don't reflect the current scientific information. She discusses the spiritual and cultural consequences of being taught the world is a product of atheistic evolution and she reveals eleven topics from public school science texts that try to support that atheistic evolutionary view. These topics include peer-reviewed articles, rock, sedimentary rock, coal, whales, dinosaurs, similar DNA, developmental similarities, structural similarities, evolution, and natural selection, and fossils and transitional forms. Each quote from the textbook is followed by a section rich in gold nugget quotes from today's top scientists like Stephen Meyer, Michael Behe, and James Tour. **Adam to Abraham** Robin Sampson, 2003-06 This multilevel K-12 Bible-focused unit study utilizes the Charlotte-Mason approach and the Internet. The focus of this unit study is on Genesis 1-12, revealing Jesus in Genesis. Includes Overview, Objectives, Timeline, Vocabulary, Annotated Resource Lists, books, Internet sites, videos, software, etc. 14 Four-Step Lessons. Four-Step Lessons: There are four basic steps in each Heart of Wisdom Unit Study lesson based on the four major learning styles. Studies show this four-step method motivates students to comprehend the material better and retain the information longer.
