Proceedings of the University of Fort Hare Teaching and Learning Conference (UFHTL 2023) Thabisa Mayisela, Liezel Cilliers, 2024-06-18 This is an open access book Blended Learning as a Blueprint for Higher Education Transformation across the higher education landscape there is talk of consolidating the gains of COVID 19 and the leveraging of advances with blended learning to mitigate challenges and benefit student learning The main purpose of the colloquium is to explore the possibilities complexities and affordances of the Fourth Industrial Revolution 4IR in Higher Education in so far as they relate to teaching and learning This will be achieved through the interrogation of practices and experiences with respect to enablement enhancement and support of programmes and arrangements as well as students and lecturers practices and experiences

Anchored in Place Bank, Leslie, Cloete, Nico, 2018-11-05 Tensions in South African universities have traditionally centred around equity particularly access and affordability historical legacies such as apartheid and colonialism and the shape and structure of the higher education system What has not received sufficient attention is the contribution of the university to place based development This volume is the first in South Africa to engage seriously with the place based developmental role of universities In the international literature and policy there has been an increasing integration of the university with place based development especially in cities This volume weighs in on the debate by drawing attention to the place based roles and agency of South African universities in their local towns and cities It acknowledges that universities were given specific development roles in regions homelands and towns under apartheid and comments on why sub national place based development has not been a key theme in post apartheid higher education planning Given the developmental crisis in the country universities could be expected to play a more constructive and meaningful role in the development of their own precincts cities and regions But what should that role be Is there evidence that this is already occurring in South Africa despite the lack of a national policy framework What plans and programmes are in place and what is needed to expand the development agency of universities at the local level Who and what might be involved Where should the focus lie and who might benefit most and why Is there a need perhaps to approach the challenges of college towns secondary cities and metropolitan centers differently This book poses some of these questions as it considers the experiences of a number of South African universities including Wits Pretoria Nelson Mandela University and especially Fort Hare as one of its post centenary challenges

Lessons To Be Learnt From The World's Great Icons Life Experiences. Bheki S.V. Ntshingila, 2016-11-23 The book is about the late Mr Nelson Mandela the unrepentant crusader and freedom fighter against the obnoxious apartheid regime in South Africa who became an instant toast of the entire world which is a reminder that in each person there is a seed of greatness expected to be discovered and to be used to make this world a better one for all who live in it instead of experiencing hatred and brutality What makes a person to succeed is not how bad she or he thinks but is high optimism thinking big willingness to learn from others mistakes and life experiences

There is a lot we can learn from Madiba's life experience and I don't doubt that the world is also learning something constructive or destructive from you. If you are not constructive to others, how would you be constructive to yourself? Remember, greatness is a phenomenon that could be associated with anyone with a positive mind. Good, better, best, never let it rest till your good is better and your better is best.

Campus Student Activism, Politics, and Citizenship in the 21st Century Tshishonga, Ndwakhulu, 2025-04-03. Student activism and citizenship remain an integral part of the governance of academic institutions, democratizing the learning environment and advancing democratic values and societal change. As a result, student activism has become a key aspect of the global higher education landscape. Individually and through the student councils, students have been at the forefront fighting for social justice and equality inside their academic institutions and in larger society by fusing activism with citizenship. Through student activism and citizenship, students demonstrate their power to keep governments responsible and in redirecting the voices of students in higher education's decision-making processes. Further exploration may afford students the opportunity to influence social change by partaking in educational policy reforms and broadening global sociopolitical and economic growth. *Campus Student Activism, Politics, and Citizenship in the 21st Century* examines the dynamics of campus politics through student activism and citizenship perspectives, academia, public, private, and civil society sectors. It explores how student leadership engages university society stakeholders, including management and governance structures and student welfare and institutional policy reformation in defense of the rights and interests of students. This book covers topics such as higher education political engagement and social justice and is a useful resource for policymakers, government officials, sociologists, political scientists, academicians, and researchers.

Students' participation in university governance in South Africa Vuyo Mthethwa, 2023-03-01. The purpose of this book is to examine the academic experiences of students who participated in university governance at South African universities. Scrutiny is placed on the alignment of student representative council constitutions and university statutes with the actual experiences students had in discharging their roles in governance and in the way this impacted their academic progress. Through a multi-site case study design, semi-structured interviews were conducted with members of the student representative council who participated in university governance and supported by document analysis and observations to generate the data. The study adopted Tinto's Integration Theory and Astin's Theory of Involvement as the two frameworks are based on the relationship between students' extra-curricular activity and their academic experiences. The study invokes a greater awareness of students as major stakeholders in governance and informs policies and practices that may better serve students' academic experiences. The study will contribute to the understanding of cooperative governance principles while drawing from the perspective of the students on their understanding, limitations, and challenges in discharging their roles in university governance.

A Bold Profession Leslie Anne Hadfield, 2021-05-11. In rural South African clinics, Black nurses were charged with administering life-saving health care measures despite a lack of equipment and personnel, often while

navigating the intersections of traditional African healing practices and changing gender relations *A Bold Profession* is an homage to their dedication to the well being of their communities House of Truth & Bloke and His American Bantu Siphiwo Mahala, 2025-02 Siphiwo Mahala delves into the lives of iconic figures from South Africa's tumultuous past in this remarkable collection of plays. The collection opens with *The House of Truth* which explores the complexity of Can Themba a fearless journalist playwright and poet living under an oppressive apartheid regime. The one man play weaves together elements of Themba's life and career recreating the excitement and pathos of the DRUM era South Africa's first magazine for a black audience and his resident neighborhood Sophiatown in Johannesburg before it was destroyed by apartheid legislation. Themba is brought back to life as an ordinary person with human flaws and attributes both tragic and inspirational. In the second play *Bloke and His American Bantu* Mahala brings to life the extraordinary lives of Bloke Modisane a South African writer exiled in London and Langston Hughes the renowned American poet. This two hander play celebrates their remarkable camaraderie and intellectual exchange. Through a reimagined correspondence the play deftly explores how a simple friendship blossomed into a catalyst for international solidarity and cultural exchange across continents from Africa to the UK to America. As a whole the plays explore the intersections of identity creativity and resistance. With wit poise and unflinching honesty they bring to life the triumphs and struggles of these remarkable men who left an indelible mark on their worlds and celebrate the human spirit's capacity to persevere inspire and uplift **Pentecostalism and Human Rights in**
