

The background is a complex, abstract composition. It features a dark, textured globe in the center, overlaid with a grid of lines. Surrounding the globe are various elements: a large, glowing green number '32' in the top left; a large, glowing green number '704' in the middle left; and several large, glowing green numbers with decimal points, such as '431.25', '468.26', and '366.48', arranged vertically on the left side. The overall color palette is dominated by greens, blues, and oranges, with a sense of depth and movement. The title 'ECONOMICS NOW' is prominently displayed in a bold, yellow, sans-serif font within a dark, rounded rectangular box. Below the title, the subtitle 'ANALYZING CURRENT ISSUES' is written in a smaller, white, sans-serif font. At the bottom, the authors' names are listed in a white, sans-serif font within a dark, rounded rectangular box. The Oxford Canada logo is located in the bottom right corner.

Carson, Wade L.

Thomas, Jason Hecht, 2015-03-04 Written in non technical everyday language that is accessible to the undergraduate audience and requiring no background in economic analysis this acclaimed text provides a unique approach to understanding what the practice of economics is all about The authors address fourteen current economic issues covering both micro and macro economics and offer analyses and proposed solutions for each from Conservative Liberal and Radical perspectives This new edition incorporates critical changes in economic policy since the last edition that affect every issue covered in the text Tables have been updated throughout to include current economic data and an all new section on social policy frames the current debate about the Social Security system The book's unique approach stimulates critical thinking on everyday issues that traditional texts either ignore or present as settled debates It helps students to understand the dual role that ideology and logical empirical argumentation play in economics Issues are presented as stand alone subjects that can be read in any sequence and used to supplement a wide range of principles of economics texts An instructor's manual with a test bank and discussion questions is available to professors who adopt the text and Power Point downloads are available as teaching aids The text is also available in two separate volumes *Microeconomics Today* and *Macroeconomics Today* *Current Issues in Project Analysis for Development* John Weiss, David Potts, 2012-01-01 For over fifty years project analysis techniques have been applied in the assessment of development projects where poorly designed and appraised projects can waste scarce resources This study examines the continued relevance of this approach assesses methodological developments over this period and investigates current practical problems in the application of these techniques This major work brings together authors with experience of both academic and operational project work to focus on issues such as the shadow exchange rate the shadow wage the discount rate and assessment of poverty impact and risk as well as problems relating to specific sectors covering environmental projects transport education and health There are also general chapters on the experience of semi

input output based estimation of shadow prices and the relevance of shadow pricing techniques to the context of developed economies in the EU An overview by the editors sets out the evolution of the literature and highlights current issues The general conclusion is that project analysis techniques remain relevant albeit within a very different development context to that in which they were originally envisaged to be applied With new perspectives on key economic parameters this book will appeal to academics working on development officials involved with project aid programmes postgraduate students of development and professional economists working on development projects
