Introduction to Educational Research Craig A. Mertler, C. M. Charles, 2005 This non-technical hands-on introductory text is supported by up-to-date technology to augment students' comprehension and interpretation of both qualitative and quantitative techniques in educational research methods. Introduction to Educational Research Fifth Edition guides the learner through eight research methods to help plan and compose their first educational research project. Through chapter contents and in-text exercises, readers simultaneously learn how to prepare a research plan, gather and analyze data, address research questions and hypotheses, and organize a report of their projects. In keeping with the main purpose of helping students clearly understand and apply research concepts, the language of the text is non-technical and there are many pedagogical features throughout the text.
