Function Family Application

Identifying Function Families in

Example: It's only Tuesday and we've already made four calls to the gym. The gym membership is supposed to cost \$100, which is right. The club that charges \$10 a month is \$100 a month. If you're looking for a gym membership, which is the number of months you want to join?

1. Name the function family. What aspects of the membership situation indicate that it belongs to that family?
2. Make a table to represent the situation.
3. Use technology to graph the function.
 - What graph looks like
 - What the line
 - What the function is called
4. Name the independent variable in this situation.
5. Name the dependent variable in this situation.
6. Does this situation have a constant? If so, explain its meaning within the context of the situation.
