Confederate Emancipation Bruce Levine, 2005-11-01 In early 1864 as the Confederate Army of Tennessee licked its wounds after being routed at the Battle of Chattanooga Major General Patrick Cleburne the Stonewall of the West proposed that the most courageous of our slaves be trained as soldiers and that every slave in the South who shall remain true to the Confederacy in this war be freed In *Confederate Emancipation* Bruce Levine looks closely at such Confederate plans to arm and free slaves He shows that within a year of Cleburne's proposal which was initially rejected out of hand Jefferson Davis Judah P Benjamin and Robert E Lee had all reached the same conclusions At that point the idea was debated widely in newspapers and drawing rooms across the South as more and more slaves fled to Union lines and fought in the ranks of the Union army Eventually the soldiers of Lee's army voted on the proposal and the Confederate government actually enacted a version of it in March The Army issued the necessary orders just two weeks before Appomattox too late to affect the course of the war Throughout the book Levine captures the voices of blacks and whites wealthy planters and poor

farmers soldiers and officers and newspaper editors and politicians from all across the South In the process he sheds light on such hot button topics as what the Confederacy was fighting for whether black southerners were willing to fight in large numbers in defense of the South and what this episode foretold about life and politics in the post war South Confederate Emancipation offers an engaging and illuminating account of a fascinating and politically charged idea setting it firmly and vividly in the context of the Civil War and the part played in it by the issue of slavery and the actions of the slaves themselves
