Education for Victory Olga Anna Jones, 1944 **School Life**, 1947 **Normal Instructor**, 1913 *Normal Instructor and Teachers World*, 1923 *Most Likely to Succeed* Tony Wagner, Ted Dintersmith, 2015 From two leading experts in education and entrepreneurship an urgent call for the radical re imagining of American education so that we better equip students for the realities of the twenty first century economy Today more than ever we prize academic achievement pressuring our children to get into the right colleges have the highest GPAs and pursue advanced degrees But while students may graduate with credentials by and large they lack the competencies needed to be thoughtful engaged citizens and to get good jobs in our rapidly evolving economy Our school system was engineered a century ago to produce a work force for a world that no longer exists Alarminglly our methods of schooling crush the creativity and initiative young people need to thrive in the twenty first century In *Most Likely to Succeed* bestselling author and education expert Tony Wagner and venture capitalist Ted Dintersmith call for a complete overhaul of the function and focus of American schools sharing insights and stories from the front lines including profiles of successful students teachers parents and business leaders *Most Likely to Succeed* presents a new vision of American education one that puts wonder creativity and initiative at the very heart of the learning process and prepares students for today s economy This book offers parents and educators a crucial guide to getting the best for their children and a roadmap for policymakers and opinion leaders *Resources in Education*, 2001

Building Blocks Gene I. Maeroff, 2025-09-23 A student s entire journey along the educational spectrum is affected by what occurs and crucially by what does not occur before the age of eight or nine Yet early learning has never received the attention it deserves and needs In his latest book education expert Gene Maeroff takes a hard look at early learning and the primary grades of schooling *Building Blocks* offers a concrete and groundbreaking strategy for improving early education Filled with colorful descriptions and anecdotes from Maeroff s visits to schools around the country *Building Blocks* creates a rich portrait of education in America ranging from math lessons imported from Singapore in Massachusetts to serious but joyful kindergartens in California He speaks of the need for schools to prepare for the burgeoning enrollment of youngsters from immigrant families and for all children to acquire the habits and dispositions that will make them committed and productive students Maeroff issues a call to action for policy makers and parents alike **Encyclopedia of Information Technology Curriculum Integration** Tomei, Lawrence A., 2008-02-28 As more and more universities schools and corporate training organizations develop technology plans to ensure technology will directly benefit learning and achievement the demand is increasing for an all inclusive authoritative reference source on the infusion of technology into curriculums worldwide The *Encyclopedia of Information Technology Curriculum Integration* amasses a comprehensive resource of concepts methodologies models architectures applications enabling technologies and best practices for integrating technology into the curriculum at all levels of education Compiling 154 articles from over 125 of the world s leading experts

on information technology this authoritative reference strives to supply innovative research aimed at improving academic achievement teaching and learning and the application of technology in schools and training environments *Managerial Dilemmas* John Storey, Graeme Salaman, 2010-02-18 In the midst of the most severe recession for 80 years there is little need to argue that organizations are beset by dilemmas and paradoxes Confidence in prevailing business models and in the underlying assumptions underpinning business decisions over many decades has now been shaken But it is not enough to rail against arrogance and greed Within their own flawed assumptions bankers and corporate leaders were acting rationally A major reason for the failure to anticipate and warn is that observers of organizations usually tend to view organizations in terms similar to those employed by the people who run them as rational sensible and objective whereas in fact they are usually confused and confusing paradoxical and contradictory entities Paradox is at the heart of how organizations work or don't work yet the phenomenon has been strangely unstudied In an age of crisis and uncertainty dilemmas and paradoxes are especially evident and prevalent The fascination and the promise of paradox is that there is also a sense that there is a hidden truth entwined within the opposites This we contend is a challenge for leaders The ultimate responsibility of leadership is to make sense of these and to handle them in a competent manner This demands a new mode of leadership The management of dilemma and paradox it is contended the essence of leadership today Paradoxical forces provide a dynamism which although often experienced as potentially threatening discomfiting and negative can also be exciting promising and positive The assumption that organizations are rational entities is challenged every day in the work environment by a rich reality of asymmetries between conflicting forces complexity hidden intentions and paradoxes Anyone wanting to understand the real forces that govern organizations should read this book A must read for modern leaders who have the intellectual honesty to lead organisations with open eyes and not with the over simplifications and clichés of the past Giovanni Ghisetti Director Business Transformation Coca Cola Enterprises Europe Storey and Salaman's description of the paradoxes which characterise leadership today is hauntingly accurate Their intelligent optimism that those dilemmas can be met is as encouraging as it is challenging for those of us who have to do just that Having read the insights in this book I now understand how their business advice was always so pertinent Andy Street Managing Director of John Lewis **School Life**, 1950
