Plato Robin Barrow,2014-10-23 Plato was the first and most formidable thinker to recognise that education is a fiercely contested concept and to point out what great social and personal issues are at stake in education He articulated a compelling argument for a liberal arts education as something peculiarly befitting free and autonomous beings He understood the centrality of education for human well being and flourishing And he was the first to set forth a systematic theory of education In this text Robin Barrow concisely and convincingly establishes the continuing relevance of Plato s views to debates on such issues as nature vs nurture or genetic inheritance vs social background philosophy vs sophistry or the pursuit of true understanding vs the pursuit of reputation or perhaps simply truth vs politics and the media Questions concerning the fair distribution of education moral education value judgments and human nature are explored along with themes more specifically associated with Plato s philosophy such as the Theory of Ideas The whole is embedded in a clearly presented account of the historical background to Plato s thought *Key Concepts in the Philosophy of Education*

Christopher Winch,John Gingell,1999 In a clear and lively manner this new reference explains all of the essential concepts used in contemporary and modern philosophy of education It also provides invaluable background on the classic educational philosophy texts of Rousseau Plato and others readers will find coverage of seminal views on teaching learning and indoctrination as well as such contemporary concepts as postmodernism markets and school effectiveness Students researchers and anyone interested in contemporary education will be certain to want this unique and authoritative resource

Loves Me and high school cynicism the childlike acceptance of pat answers about faith is lost often forever But while many

parents find this transitional period daunting they don't want their kids to leave the Christian faith just because they didn't get good answers to how prayer works or whether dinosaurs were on Noah's ark *Honest Answers* is a discussion book to help parents tackle the God questions that make them sweat This isn't the place to come for pat answers that will make their kids nod smile and disconnect Janelle Alberts and Ingrid Faro know that when tweens start asking questions they're already old enough to understand the answers They're determined to equip parents with the language theology permission and confidence to join in the discussion and to learn how to offer deeply doctrinal answers in 140 characters or less The tween years present an incredible opportunity to build trust with kids and to keep them coming back to their parents for answers rather than finding other sources With the tools and conversational tips here mom and dad can engage in a hopeful conversation and help their children build a Christian faith to hold them steady their whole lives *Thinking Things Through*

Clark N. Glymour, 1997 *Thinking Things Through* provides a broad historical and rigorous introduction to the logical tradition in philosophy and to its contemporary significance The presentation is centered around three of the most fruitful issues in Western thought What are proofs and why do they provide knowledge How can experience be used to gain knowledge or to alter beliefs in a rational way What is the nature of mind and of mental events and mental states In a clear and lively style Glymour describes these key philosophical problems and traces attempts to solve them from ancient Greece to the present *Thinking Things Through* reveals the philosophical sources of modern work in logic the theory of computation Bayesian statistics cognitive psychology and artificial intelligence and it connects these subjects with contemporary problems in epistemology and metaphysics The text is full of examples and problems and an instructor's manual is available Clark Glymour is Alumni Professor of Philosophy at Carnegie Mellon University and Adjunct Professor of History and Philosophy of Science at the University of Pittsburgh
