

**Roth 10e NCLEX
Chapter 12**

MULTIPLE CHOICE

1. The mother of an infant child asks the nurse what the right feeding schedule is for an infant. Of the following responses, which would be the best response for the nurse to make?
- Feed the infant every 2 hours.
 - Feed the infant every 3 hours
 - Feed the infant every 4 hours
 - Feed the infant when the infant is hungry.

ANS: D

Although babies have been fed according to prescribed time schedules in the past, it is preferable to feed babies on demand. Feeding on demand prevents the frustrations that hunger can bring and helps the child develop trust in people. The newborn may require more frequent feedings, but normally by the time the baby is 2 or 3 months old, the demand schedule averages approximately every 4 hours.

PTS: 1

REF: Introduction

2. The parents of an infant tell the nurse that they are concerned that their healthy breastfed infant is not getting enough fluid from breast milk alone. What could the nurse say about the infants' need for fluids?
- Babies require 2 ml of water per calorie consumed.
 - Give the baby a bottle with 10 ml of water 4 times a day.
 - Offer the baby water in a bottle frequently and let the baby drink ad libitum.
 - The ratio of water to calories in breast milk is ideal for the infant.

ANS: D

Infants have more water per pound of body weight than do adults. Thus, infants usually need 1.5 ml of water per calorie. This is the same ratio of water to calories found in human milk and in most infant formulas.

PTS: 1

REF: Nutritional Requirements

3. The parents bring a two month infant in who has had frequent ear infections. The baby is being fed formula from a bottle. The nurse knows that feeding position may affect development of ear infections. How should the nurse say the infant should be positioned for feeding?
- in a semi upright position
 - lying flat
 - on its side
 - propped up in a chair

ANS: A

It appears that babies held in a semi-upright position during bottle feeding are less inclined to develop middle ear infections than those fed lying down.

PTS: 1

REF: Bottle Feeding

4. A client tells the nurse that formula is very expensive and wants to know when the infant can be given regular cow's milk. What is the best response for the nurse to make?
- at 6 months of age
 - at 12 months of age
 - at 18 months of age
 - at 24 months of age

ANS: B

Infants under 1 year of age should not be given regular cow's milk.

Answer For Delmar Cengage Learning

Terry Des Jardins, George G. Burton

Answer For Delmar Cengage Learning:

Review Questions and Answers for Veterinary Technicians E-Book Heather Prendergast,2021-02-01 Prepare for VTNE success Review Questions and Answers for Veterinary Technicians 6th Edition provides 5 000 VTNE style questions that have been reviewed and updated to reflect the latest changes to the Veterinary Technician National Examination The book begins with multiple choice questions on basic knowledge including anatomy and physiology hospital management calculations and terminology It continues with a Q A review of core subjects such as pharmacology surgical nursing laboratory procedures diagnostic imaging and pain management Written by veterinary technology educator Heather Prendergast this review includes an Evolve website allowing you to create customized timed practice exams that mirror the VTNE experience More than 5 000 multiple choice questions are rigorously reviewed mirror the type of questions found on the VTNE and are designed to test factual knowledge reasoning skills and clinical judgment Detailed rationales are included in the print text and on the Evolve website reinforcing student knowledge and providing the reasoning behind answers Organization of the book into primary subject areas reflects the latest version of the VTNE Customized exam generator on Evolve offers a simulated test taking experience with customized practice tests and timed practice exams with instant feedback and extended rationales **NEW** More than 200 new questions are added to this edition *MCQS in Critical Care Medicine* Sandeep Aggarwal,Gunjan Chanchalani,1905-07-08 This is the first comprehensive book published from India which is based on MCQs primarily for doctors appearing for competitive exams in critical care medicine It is also a must have for every doctor and nurse working in the ICU as the case scenarios and latest recommendations will help them to have a better approach towards complex situations and provide better care to the patients **Maternal-Newborn Davis Essential Nursing Content + Practice Questions** Sheila Whitworth,Taralyn McMullan,2017-03-08 Too much information Too little time Here s everything you need to succeed in your maternal newborn nursing course and prepare for course exams and the NCLEX Succinct content reviews in outline format focus on must know information while case studies and NCLEX style questions develop your ability to apply your knowledge in simulated clinical situations A 100 question final exam at the end of the book You ll also find proven techniques and tips to help you study more effectively learn how to approach different types of questions and improve your critical thinking skills **Delmar's Standard Textbook of Electricity, 1st Edition** Nathan Chapin,Stephen L.
