foothold on Guadalcanal a young American airman was lost in heavy weather over the South Pacific on what was expected to be a routine flight In examining that loss and the events leading up to a rescue attempt on an island in the South Pacific and bringing together societies utterly alien to each other Survival in the South Pacific brings together the big themes of the Pacific War Lieutenant Leonard Richardson and his comrades had been swept from their homes across America trained at speed for war and dispatched to one of the remotest places on the globe American war plans in place when Pearl Harbor was attacked poorly reflected the capabilities of its military and the limits imposed by America's far flung and indefensible territories The Germany First policy had resulted in a deeply uncertain future for forces in the South Pacific and Australia the United States was unprepared for the global war that came to it in late 1941 even as the pipeline of men and materiel began to fill Young Allied and Japanese aviators sailors and soldiers were not the only ones thrown into the swirling maelstrom of war that had engulfed the Pacific the indigenous islanders were also immersed in a new reality In bringing together individual stories of men at war this book gives a new perspective on the Pacific War Special Studies Military History Center,1994 *Air Force Combat Units of World War II - Traces the Historical Lineage of Each Army Air Corps and U. S. Air Force Combat Group Active in the Second World War* U. S. Military,U. S. Air Force,Office of Air Force History,Maurer Maurer,Department of Defense,2017-09-27 This is an important and comprehensive historical document traces the lineage of each Army Air Corps and U S Air Force combat group or higher organization active in World War II from its origins to 1956 It is a concise official record of those units their assignments subordinate organizations stations commanders campaigns aircraft and decorations But it is more than that As an important source of ready information this volume not only serves as a reference tool for historians and researchers but it also provides commanders with a corporate memory of vital statistics With these facts a unit documents its heritage the basis for unit esprit de corps Originally this volume had been printed in 1961 Its worth has been proven and the demand for it has been great With this reprint it will continue to serve the United States Air Force in all quarters in years to come Over a period of several years the USAF Historical Division has received hundreds of requests for brief histories of Air Force organizations Air Force units ask for historical data they can use for the orientation of new personnel and for building morale and esprit de corps USAF Headquarters and the commands need historical data for organizational planning Information officers throughout the Air Force want historical materials for public relations purposes Members and former members of the Air Force are interested in the units with which they have served Government agencies and private individuals for various reasons seek information about Air Force units and their histories As a result of the great demand for and the interest in such histories it appeared that a book containing brief sketches of Air Force combat organizations would be of value as a reference work The task of preparing such a volume was undertaken by the USAF Historical Division as a phase of its work on World War II Scope This book is concerned primarily with the combat or tactical groups that were active during the Second World War Although such groups had numerous designations nearly all

fell within four major categories bombardment fighter reconnaissance and troop carrier The book covers both the combat groups that served overseas and those that remained in the United States It also covers combat organizations above the group level It does not deal with provisional organizations or with air base maintenance supply medical transport and other service or support organizations Although this book is devoted exclusively to organizations that were active during World War II its coverage of those organizations is not confined to the World War II period Instead each organization is traced back to its origin and forward to 1 January 1956 with later activations being mentioned if they took place prior to the time the draft of the book was prepared in 1957 1958 The organizations are presented under the designations they carried on 2 September 1945 For each organization there is information concerning insignia lineage operations assignments aircraft for groups only components stations commanders campaigns and decorations Official Military Historical Offices and Sources Robin Higham, 2000-05-30 Making official history from all over the world accessible this volume and its companion complement and bring Robin Higham's 1970 classic work Official Histories up to date Each chapter written by the staff of the relevant historical office gives both historiographical background and information on the volumes published by that office Covering the Western Hemisphere and the Pacific Rim this volume provides a plethora of information as does the companion volume on Europe Russia Africa the Middle East and India Buried in official history volumes is a lot of fine and useful history and official volumes deserve to be perused This book will make those histories available to scholars and graduate students and will be especially useful to those concerned with military social and diplomatic history as well as medicine
