away from but might like to read about There are some tropical visits and temperate ones too but the latest tally has been 21 landings or take offs within the Arctic Circle and photos included in the book show Greenland Iceland Faroes Svalbard sometimes called Spitzbergen The Falklands and Antarctica amongst others but there are some in warmer temperature zones Over those years of travel 124 separate trips have been made involving over 450 different flights In the early years many were propeller aircraft and then later jet transport but over that period 64 different types have been flown and each is supported in the book by brief technical notes and a photo The author s work in airline operations and then later in the travel agency sector allowed him the opportunity to extensively travel the world and see these sights Later in retirement the travel bug has continued Interspersed into the timeline of the book is the author s autobiography of his time spent in the three countries he has lived in during his working life
