The TurnAround ToolKit Lynn Winters,Joan Herman,2011 Lynn Winters s and Joan Herman s The Turnaround Toolkit is written for school leaders who are focused on transforming instruction and who may be working under significant time constraints to reverse declining student achievement or public perceptions of school failure Based on the evidence that simply implementing continuous improvement is not enough to close the achievement gap The Turnaround Toolkit provides a nine step formative evaluation program designed to achieve an immediate and consistent focus on improving instruction in order to bolster student achievement In a straightforward and accessible fashion Herman and Winters explain three overarching Turnaround Tasks that frame these steps and the necessary and sometimes drastic actions that must be taken by school leaders as they use data to strategically choose implement monitor and revise school interventions A dedicated online toolkit offers numerous worksheets and templates that support each stage of the process and help school leaders scaffold the work of educators to put an aggressive turnaround plan into action while a leadership guide at the end of the book provides guidance to turnaround teams and facilitators

Mathematics Benchmarking Report ,2001 *Algebra in the Early Grades* James J. Kaput,David W. Carraher,Maria L. Blanton,2017-09-25 This volume is the first to offer a comprehensive research based multi faceted look at issues in early algebra In recent years the National Council for Teachers of Mathematics has recommended that algebra become a strand flowing throughout the K 12 curriculum and the 2003 RAND Mathematics Study Panel has recommended that algebra be the initial topical choice for focused and coordinated research and development in K 12 mathematics This book provides a rationale for a stronger and more sustained approach to algebra in school as well as concrete examples of how algebraic reasoning may be developed in the early grades It is organized around three themes The Nature of Early Algebra Students Capacity for Algebraic Thinking Issues of Implementation Taking Early Algebra to the Classrooms The contributors to this landmark volume have been at the forefront of an effort to integrate algebra into the existing early grades mathematics curriculum They include scholars who have been developing the conceptual foundations for such changes as well as researchers and developers who have led empirical investigations in school settings Algebra in the Early Grades aims to bridge the worlds of research practice design and theory for educators researchers students policy makers and curriculum developers in mathematics education

Teaching As Leadership Teach For America,Steven Farr,2010-02-02 A road map for teachers who strive to be highly effective leaders in our nation s classrooms Teach For America has fought the daunting battle of educational equity for the last twenty years Based on evidence from classrooms across the country they ve discovered much about effective teaching practice and distilled these findings into the six principles presented in this book The Teaching As Leadership framework inspires teachers to Set Big Goals Invest Students and Their Families Plan Purposefully Execute Effectively Continuously Increase Effectiveness Work Relentlessly The results are better educational outcomes for our nation s children particularly those who live in low income

communities Inspires educators to be leaders in their classrooms and schools Demystifies what it means to be an effective teacher describes key elements of practice and provides a clear vision of success Addresses the challenges every teacher in every classroom faces on a daily basis An accompanying website includes a wealth of tools videos sample lessons discussion boards and case studies **Creating Smart Schools** Dr. Judith Kronin, 2011-06-18 This book is a guide for the creation of Smart Schools Through the use of the Education Instructional Coaching Model American students can display the highest levels of academic achievement This model is based upon a set of core beliefs that include the major goal of educators is to inspire students to become critical thinkers and independent learners educators must create environments of small learning communities where a major portion of instruction is devoted to problem solving teachers must design student directed instruction educational reform is comprehensive and involves every member of the educational community instructional coaching which requires mutual respect between a coach and teacher is the corner stone for improving classroom instruction
