Algorithms For Minimization Without Derivatives Richard P Brent:

Algorithms for Minimization Without Derivatives Richard P. Brent, 2002-01-01 This outstanding text for graduate students and researchers proposes improvements to existing algorithms extends their related mathematical theories and offers details on new algorithms for approximating local and global minima None of the algorithms requires an evaluation of derivatives all depend entirely on sequential function evaluation a highly practical scenario in the frequent event of difficult to evaluate derivatives Topics include the use of successive interpolation for finding simple zeros of a function and its derivatives an algorithm with guaranteed convergence for finding a minimum of a function of one variation global minimization given an upper bound on the second derivative and a new algorithm for minimizing a function of several variables without calculating derivatives Many numerical examples augment the text along with a complete analysis of rate of convergence for most algorithms and error bounds that allow for the effect of rounding errors *Algorithms for Minimization Without Derivatives* Richard P. Brent, 2013-06-10 DIV Outstanding text for graduate students and research workers proposes improvements to existing algorithms extends their related mathematical theories and offers details on new algorithms for approximating local and global minima div **Numerical Methods** Germund Dahlquist, Åke Björck, 2012-04-26 Substantial detailed and rigorous readers for whom the book is intended are admirably served MathSciNet Mathematical Reviews on the Web American Mathematical Society Practical text strikes fine balance between students requirements for theoretical treatment and needs of practitioners with best methods for large and small scale computing Prerequisites are minimal calculus linear algebra and preferably some acquaintance with computer programming Text includes many worked examples problems and an extensive bibliography *Multiobjective Programming and Planning* Jared L.
