The Oxford Handbook of New Religious Movements James R Lewis, 2008-07-17 The Oxford Handbook of New Religious Movements both covers the current state of the field and breaks new ground Its contributors drawn from both sociology and religious studies are leading figures in the study of NRMs Alien Abductions Peter Brookesmith, 1998 Since the late 1980s more and more people in the Americas and in Europe have come to believe they have been forcibly abducted by alien beings taken on board their spacecraft and subjected to a range of distressing indignities **European Comics in English Translation** Randall William Scott, 2002 European comic authors produced a steady stream of comic material throughout the twentieth century but gained the world's notice in 1975 when the French magazine Metal Hurlant was founded A new generation of artists and writers had begun Soon publishers were producing translations of the new comics into other languages including English and comics creators everywhere were inspired to innovation This is a reference work arranged by artist or writer to European comics from the last quarter of the twentieth century that have been translated from any European language into English It contains a variety of material from the innocent imperialism of Herge's Tintin to the sadistic murder for hire in Bernet's Torpedo Albums by a single creator or artist and writer team of European origin are the focus comics in periodicals and anthologies with multiple contributors are excluded Each entry provides a plot abstract and various notes about the original comic An author index provides brief biographical information There is a comprehensive general index **Health and the Media** Valentina Marinescu, Bianca Mitu, 2016-06-05 Analyzing the relationship between medicine and the media from different perspectives these new essays fill a gap in this emerging field providing new information on approaches to health communication and important reevaluations of health literacy theories The contributors discuss ideas and methodologies across a range of topics including multifaceted health communication media coverage of maternal health the rhetoric of diagnosis in autoimmune illness media representation of the sick in data driven healthcare and health news coverage in print media The World's Greatest Alien Abduction Mysteries Book Sales, Inc., 2002-03 Describes sightings and encounters with unidentified flying objects and extraterrestrial beings **UFOs and Abductions** David Michael Jacobs, 2000 Examining the nature of UFO evidence the authors present a primer for scholars skeptics and others uneasy about investigating the field of UFOs The volume also brings together three bestselling authors David M Jacobs Budd Hopkins and Pulitzer Prize winner John Mack widely known for their writings on the controversial alien abduction phenomenon **Abduction** Jenny Randles, 1988 **The Experience of Atheism: Phenomenology, Metaphysics and Religion** Claude Romano, Robyn Horner, 2021-05-06 Religious and atheistic belief are presented anew in a volume of essays from leading phenomenologists in both France and the UK Atheism often presented as the negation of religious belief is here engaged with from a phenomenologically informed notion of experience The focus on experience sparks new debates in readings of belief faith and atheism as they relate to and complicate each other What unites the

contributors is their relationship to phenomenology as it has developed in France in the wake of Heidegger and Husserl. Leading French intellectuals from this context Jean Luc Nancy, Quentin Meillassoux and Catherine Malabou amongst others contribute arresting ideas on atheistic faith, the death of God and anarchic faith opening up new areas of understanding in a field whose parameters and core concepts are ever shifting. Revealing the extent to which religious and atheistic belief must be seen to influence and on a fundamental level to co create one another, the pluralistic society in which religious belief is counted as one option amongst many is given primacy. The fact that religious faith has become not only optional but also in many contexts strangely alienated from society deeply modifies the experience of the believer as much as that of the non believer. A focus on experience over and above belief moves us towards a mode of experiential knowledge which refuses to privilege the atheistic believer and deride the reality of religious belief.

Teleparody Angela Hague, David Lavery, 2002. Umberto Eco once observed that parody must never be afraid of going too far. If its aim is true it simply heralds what others will later produce unblushing with impassive and assertive gravity. In a cautionary attempt to dissuade those who may be tempted, Teleparody fearlessly does go too far in its compilation of reviews of not yet existing but all too possible contributions to television studies. In the tradition of Mad Magazine and the online humor newspaper The Onion, the contributors bring all their critical skills to bear examining the hypothetical scholarship surrounding such TV texts as The Beverly Hillbillies, South Park, the Weather Channel, Mister Rogers and Mister Ed. The Teletubbies, Max Headroom, Sally Field and reality TV.

Alien Abductions Terry Matheson, 1998-11-01. Extraterrestrials regularly abduct humans from Earth, often performing bizarre surgeries and experiments on their subjects, according to the popular and profitable nonfiction offered by major publishing houses. Books by John Fuller, Budd Hopkins, David Jacobs, Whitley Strieber and others have helped shape contemporary belief in alien beings. Science fiction scholar Terry Matheson reveals that the alien abduction literary genre has been a part of our history for decades but was never taken seriously until recent times. He explains that traditional aliens were friendly or merely curious, quite different from today's ugly, fierce, sinister creatures. Abduction narratives and individual accounts have evolved and changed, and the new aliens seem to symbolize growing fears that our technology is out of control.

Actual accounts from abduction victims and evidence collected Matheson stresses are often greatly enhanced by the bestselling authors who market the stories or are directly linked to well known fantasy and sci fi films released or broadcast prior to the alleged abductions Alien Abductions also draws a parallel to the way societal myths are made and that in these narratives we see a new myth in the making *"The" Statutes: Revised Edition* ,1880 [The British National Bibliography](#) Arthur James Wells,2009 *Encyclopedia of Witchcraft* Richard M.
