I Mattered a Teacher's Story Dr. Frankie J. Monroe-Moore, 2012-02-21 In *The New Meaning of Educational Change* Fullen wrote Low morale depressed feeling unfairly blamed for the ills of society You must be a teacher This quote spoke volumes to me as I watched politicians jockeying for position by spewing their recycled political rhetoric and then launch an all out attack against public school teachers In years past these attacks had been levied against those receiving social security Medicare and Medicaid which mainly affected the poor disabled and elderly Don't get me wrong these issues are still on the table but I guess politicians felt they had beaten them with a dead horse and needed another soft target to spark the public's interest so public school teachers was it They struck with a vengeance firing public school teachers by the thousands throughout the country In an attempt to reduce the collective bargaining power of teacher unions such as American Federation of Teacher AFT in Texas they claimed the only way they knew to help balance the state and district school budget shortfalls was to rescind some of the benefits they had agreed too It hurts when the profession I've dedicated over half of my adult life 25 yrs to is under attack by politicians and others that have no true concept of what's involved in being a public school teacher We have absolutely nothing to do with the decision making process First we were told to do one thing and then we were told to do something entirely different It's almost schizophrenic To all of my colleagues that remain on the frontlines of public education and those that are planning to take up the banner This book is for you You might not have control over the decisions being made outside your classroom but you can control those things going on inside I provide ways to control student behavior by the design of your classroom to the use of a simple yellow tablet Algebra for College Students Ignacio Bello, 1977 *Math Cycles* Hy Kim, 2008-03 These math cycles present third and fourth grade math concepts in spiral fashion so that the concepts are first introduced then reinforced and finally extended Each cycle comprises 12 problems on two reproducible worksheets and the book provides 30 cycles appropriate for grade three and 30 more for grade four Since the subject matter of each cycle targets one of the standards recommended by the National Council for Teachers of Math the activities make excellent homework assignments Six reproducible quizzes allow teachers to assess overall progress Grades 3-4 Answer key Illustrated Good Year Books 220 pages **Instructional System Development for**
