*Experiencing Liveness in Contemporary Performance* Matthew Reason, Anja Mølle Lindelof, 2016-10-26 This volume brings together dynamic perspectives on the concept of liveness in the performing arts engaging with the live through the particular analytical focus of audiences and experience The status and significance of the live in performance has become contested perceived as variously as a marker of ontological difference a promotional slogan or a mystical evocation of cultural value Moving beyond debates about the relationship between the live and the mediated this collection considers what we can know and say about liveness in terms of processes of experiencing and processes of making Drawing together contributions from theatre music dance and performance art it takes an interdisciplinary approach in asking not what liveness is but how it matters and to whom The book invites readers to consider how liveness is produced through processes of audiencing as spectators bring qualities of a liveness into being through the nature of their attention and how it becomes materialized in acts of performance acts of making acts of archiving and acts of remembering Theoretical chapters and practice based reflections explore liveness eventness and nowness as key concepts in a range of topics such as affect documentation embodiment fandom and temporality showing how the relationship between audience and event is rarely singular and more often malleable and multiple With its focus on experiencing liveness this collection will be of interest to disciplines including performance audience and cultural studies visual arts cinema and sound technologies **From**

**Heidegger to Performance** Marie Hay, Martin Leach, 2024-12-17 In *Being and Time* Martin Heidegger developed a way of considering human existence as being there a process of interrelationships with aspects of the environment in which the very process itself constitutes the essence of human being *From Heidegger to Performance* engages with this radical perspective and consider Heidegger's thinking in relation to different senses of performance from the familiar such as theatrical contexts of dance live art and theatre to explorations of modes of being within these performative situations The contributors engage with a wide variety of topics from clowning to questions of linguistic construction from the phenomenology of objects in stage space to the ephemerality of performance from the performance of personal memory to the anxiety of the moment of choice in performing a complex movement This book explores the ways in which Heidegger's work and ideas of performance and performativity intersect across their various senses and usages and will be useful to scholars teachers and students who are interested in thinking about performance and themselves as performative in new ways **Audience Participation in Theatre**

**Metatheatrical Dramaturgies of Violence** Emma Willis, 2021-11-08 This book examines a series of contemporary plays

where writers put theatre itself on stage The texts examined variously dramatize how theatre falls short in response to the demands of violence expose its implication in structures of violence including racism and gender based violence and illustrate how it might effectively resist violence through reconfiguring representation Case studies which include Jackie Sibblies Drury's *We Are Proud to Present* and Fairview Ella Hickson's *The Writer* and Tim Crouch's *The Author* provide a range of practice based perspectives on the question of whether theatre is capable of accounting for and expressing the complexities of structural and interpersonal violence as both lived in the body and borne out in society The book will appeal to scholars and artists working in the areas of violence theatre and ethics witnessing memory and trauma spectatorship and contemporary dramaturgy as well as to those interested in both the doubts and dreams we have about the role of theatre in the twenty first century

Interpreting Chekhov Geoffrey Borny, 2006-08-01 The author's contention is that Chekhov's plays have often been misinterpreted by scholars and directors particularly through their failure to adequately balance the comic and tragic elements inherent in these works Through a close examination of the form and content of Chekhov's dramas the author shows how deeply pessimistic or overly optimistic interpretations fail to sufficiently account for the rich complexity and ambiguity of these plays The author suggests that by accepting that Chekhov's plays are synthetic tragi comedies which juxtapose potentially tragic sub texts with essentially comic texts critics and directors are more likely to produce richer and more deeply satisfying interpretations of these works Besides being of general interest to any reader interested in understanding Chekhov's work the book is intended to be of particular interest to students of Drama and Theatre Studies and to potential directors of these subtle plays

stones for theorizing mobility at large This book focuses on ambulatory performances and performative installations asking how they stage movement and in turn mobilize the stage By analyzing the work of leading European artists such as Rimini Protokoll Dries Verhoeven Ontroerend Goed and Signa Nomadic Theatre demonstrates that mobile performances radically rethink the conditions of the stage and alter our understanding of spectatorship Nomadic Theatre instigates connections across disciplinary fields and feeds dramaturgical analysis with insights derived from media theory urban philosophy cartography architecture and game studies It illustrates how theatre as a material form of thought creatively and critically engages with mobile existence both on the stage and in society
