In mathematics algebra plays very important role or we can say that the general math that we use in our day to day life is all about algebra. Algebra, and important math part consists of several number of important topics.

Algebra was first introduced by Greek mathematician after that the branch that deals with operators, operations, variables and their relation has gone through several numbers of changes.

If be split the word algebra in two parts then it will be 'al + jebr', which is an Arabic word that means reunion of broken parts.

When we solve any algebra problem we have to deal with algebraic equations. Equations, plays a very important role in algebraic problems and every problem either is a word problem or any other problem first we have to convert it into equation and then it is solved.

This means conversion in equation form is required every time when we have to get solution of any problem.
