Online learning has become more and more common globally whether for comfort adapting to work hours or just having the freedom to study from anywhere And now under the coronavirus pandemic as people are having to stay at home it has become more important than ever Although the popularity of wireless network and portable smart device makes it possible for people to acquire and learn knowledge anytime and anywhere it does not necessarily mean an increased learning performance Relevant research in cognitive science has revealed possible limitations in online learning For example the knowledge acquired through online learning tends to be fragmented and lacks guidance for integrated thinking among different subjects which makes it difficult for learners to form a systematic knowledge structure Learners may experience cognitive overload metacognitive illusion and low learning efficiency in self regulated learning It follows that in the post COVID 19 era online learning puts forward new

requirements and challenges to the contemporary students not only to their learning strategies but positive character traits in learning. Most of the current learning theories were developed in the early 20th century and may not fit in well with the current situation then possibly leading to inefficient learning and increased learning burden. Therefore it is necessary and important to reexplore the influencing factors and mechanisms that affect the learning efficiency of students at all levels nowadays based on which we could construct a theoretical model of efficient learning model.

Mathematics Education of our Students M. Vali Siadat, 2022-10-19 About this Book This book introduces an innovative model in teaching and learning of mathematics. It is the result of nearly two decades of research in math education at the college. Its main premise is that all students can learn math provided they are engaged in the learning process. The award winning Keystone model as is thoroughly described in the book has produced significant student outcomes not only in mathematics but also in English reading comprehension. The research has had consistent results during the years of study. About the Author M Vali Siadat is a distinguished professor of mathematics at Richard J Daley College. He has two doctorates in mathematics a Ph D in pure mathematics and a D A in mathematics education. Dr Siadat has more than thirty publications in mathematics and mathematics education and has had numerous presentations at regional national and international mathematics meetings and conferences. Professor Siadat is the recipient of several national awards including the 2019 Award for Impact on the Teaching and Learning of Mathematics conferred by the American Mathematical Society the 2009 Mathematical Association of America's Deborah and Franklin Tepper Haimo Award for Distinguished College or University Teaching of Mathematics and the 2005 Carnegie Foundation for the Advancement of Teaching Illinois Professor of the Year Award.
