Ten papers on algebra functional analysis N. D. Filippov, 1970-12-31 *Perspectives on School Algebra* Rosamund Sutherland, Teresa Rojano, Alan Bell, Romulo Lins, 2006-02-16 This book confronts the issue of how young people can find a way into the world of algebra It represents multiple perspectives which include an analysis of situations in which algebra is an efficient problem solving tool the use of computer based technologies and a consideration of the historical evolution of algebra The book emphasizes the situated nature of algebraic activity as opposed to being concerned with identifying students conceptions in isolation from problem solving activity
