John Hogg (M.D.),1860 Beckett's Industrial Chocolate Manufacture and Use Steve T. Beckett,Mark S. Fowler,Gregory R.
Ziegler,2017-05-08 Since the publication of the first edition of Industrial Chocolate Manufacture and Use in 1988 it has
become the leading technical book for the industry From the beginning it was recognised that the complexity of the chocolate
industry means that no single person can be an expert in every aspect of it For example the academic view of a process such
as crystallisation can be very different from that of a tempering machine operator so some topics have more than one chapter
to take this into account It is also known that the biggest selling chocolate in say the USA tastes very different from that in
the UK so the authors in the book were chosen from a wide variety of countries making the book truly international Each new
edition is a mixture of updates rewrites and new topics In this book the new subjects include artisan or craft scale production
compound chocolates and sensory This book is an essential purchase for all those involved in the manufacture use and sale of
chocolate containing products especially for confectionery and chocolate scientists engineers and technologists working both
in industry and academia The new edition also boasts two new co editors Mark Fowler and Greg Ziegler both of whom have
contributed chapters to previous editions of the book Mark Fowler has had a long career at Nestle UK working in Cocoa and
Chocolate research and development he is retiring in 2013 Greg Ziegler is a professor in the food science department at
Penn State University in the USA Fundamentals of Medium/Heavy Duty Diesel Engines Gus Wright,2015-12-16 Based on
