on the lessons of Vietnam it traces the decline of COIN in the 1970s then the rebirth of low intensity conflict through the Reagan years in the conflict in Bosnia and finally in the campaigns of Iraq and Afghanistan Ultimately it closes the loop by explaining how by confronting the lessons of Vietnam the US Army found a way out of those most recent wars In the process it provides an illustration of how military leaders make use of history and demonstrates the difficulties of drawing lessons from the past that can usefully be applied to contemporary circumstances The book outlines how the construction of lessons is tied to the construction of historical memory and demonstrates how histories are constructed to serve the needs of the present In so doing it creates a new theory of doctrinal development **Whitaker's Cumulative Book List** ,1983
