Politics and Governance of Basic Education Brian Levy, Robert Cameron, Ursula Hoadley, Vinodhan Naidoo, 2018-09-21
This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world economic inclusion has risen to the top of the development discourse. A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation. The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making progress combining practical steps to achieve incremental gains to re-orient the system towards learning.

Education in Thailand Gerald W. Fry, 2018-11-01
This interdisciplinary book offers a critical analysis of Thai education and its evolution, providing diverse perspectives and theoretical frameworks. In the past five decades, Thailand has seen impressive economic success and it is now a middle income country that provides development assistance to poorer countries. However, educational and social development have lagged considerably behind its globally recognized economic success. This comprehensive book covers each level of education such as higher and vocational technical education and such topics as internationalization, inequalities and disparities, alternative education, non-formal and informal education, multilingual education, educational policy and planning, and educational assessment. The 25 Thai and 8 international contributors to the volume include well known academics and practitioners. Thai education involves numerous paradoxes which are identified and explained. While Thailand has impressively expanded its educational system quantitatively, with much massification, quality problems persist at all levels. As such, the final policy oriented summary chapter suggests strategies to enable Thailand to escape the middle income trap and enhance the quality of its education to ensure its long term developmental success.

Funding Religious Heritage Anne Fornerod, 2016-03-09 This collection brings together a group of highly respected law and religion scholars to explore the funding of religious heritage in the context of state support for religions The importance of this state support is that on the one hand it illustrates the potential tensions between secular and religious values whilst on the other it constitutes a relevant tool for investigating the question of the legitimacy of such financial support The funding logically varies according to the national system of state religion relationships and this is reflected in the range of countries studied including Belgium Bulgaria Denmark France Italy The Netherlands Spain Turkey and the United Kingdom The book provides clarity in the assignment of funds to religious heritage as well as seeking to define the limit of what relates to the exercise of worship and what belongs to cultural policy It is clear that the main challenge for the future lies not only in managing the dual purpose of religious monuments but also in re using these buildings which have lost their original purpose This collection will appeal to those interested in cultural heritage management as well as law and religion scholars The views expressed during the execution of the RELIGARE project in whatever form and or by whatever medium are the sole responsibility of the authors The European Union is not liable for any use that may be made of the information contained therein

Ogg, Gabi M. Ogg, Felix Gradstein, 2016-05-13 A Concise Geologic Time Scale 2016 presents a summary of Earth's history over the past 4.5 billion years as well as a brief overview of contemporaneous events on the Moon, Mars and Venus. The authors have been at the forefront of chronostratigraphic research and initiatives to create an international geologic time scale for many years and the charts in this book present the most up to date international standard as ratified by the International Commission on Stratigraphy and the International Union of Geological Sciences. This book is an essential reference for all geoscientists including researchers, students and petroleum and mining professionals. The presentation is non technical and illustrated with numerous colour charts, maps and photographs. Presents a summary of Earth's history over the past 4.5 billion years. Includes a brief overview of contemporaneous events on the Moon, Mars and Venus. Includes full color figures including charts, stratigraphic profiles and photographs to enhance understanding of each geologic period. Correlates regional geologic stages to the standard definitions approved by the International Commission on Stratigraphy. Offers an explanation of the methods used to create the time scale. 2017 PROSE Award Finalist in Earth Science.
