Finding Time Heather Boushey, 2016-04-19 Employers demand more of employees time while leaving the important things in life health family for workers to take care of on their own time and dime How can workers get ahead while making sure their families don't fall behind Heather Boushey shows in detail that economic efficiency and equity do not have to be enemies

The Frontiers of Corporate Food in Egypt Marion W. Dixon, 2023 This book details the development and growth of a corporate agri food system in Egypt Marion W Dixon draws on mixed methods research in Egypt between 2008 and 2012 to show how the growth of corporate food has contributed to growing food insecurity and to multiplying threats to public health from chronic and infectious diseases

The Meritocracy Trap Daniel Markovits, 2019-09-10 This book flips your world upside down Daniel Markovits argues that meritocracy isn't a virtuous efficient system that rewards the best and brightest Instead it rewards middle class families who can afford huge investments in their children's education Frightening eye opening stuff The Times Books of the Year Even in the midst of runaway economic inequality and dangerous social division it remains an axiom of modern life that meritocracy reigns supreme and promises to open opportunity to all The idea that reward should follow ability and effort is so entrenched in our psyche that even as society divides itself at almost every turn all sides can be heard repeating meritocratic notions Meritocracy cuts to the heart of who we think we are But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even

those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that The Meritocracy Trap prosecutes with rare force comprehensive research and devastating persuasion Daniel Markovits a law professor trained in philosophy and economics is better placed than most to puncture one of the dominant ideas of our age Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within as well as how we can take the first steps towards a world that might afford us both prosperity and dignity
