Gareth Van Onselen

2014 Matric Time Table Limpopo:

Politics and Governance of Basic Education Brian Levy, Robert Cameron, Ursula Hoadley, Vinodhan Naidoo, 2018-09-21

This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world economic inclusion has risen to the top of the development discourse. A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation. The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making progress combining practical steps to achieve incremental gains to re-orient the system towards learning.

Clever Blacks, Jesus and Nkandla Gareth Van Onselen, 2014-05-08

Jacob Zuma is a man who walks in two worlds. As president of South Africa, he is tasked with upholding the principles that define the Constitution and embodying the values they are designed to engender. But as an individual, a set of private impulses ranging from his religious beliefs to his traditional African cultural convictions to a populist and patriarchal attitude to power defines his world view and many of these impulses run counter to the Bill of Rights. The result is an often violent clash between his formal duties and more informal demagogic instincts. South Africa's public debate is where that conflict plays itself out. Here Gareth van Onselen has put together a comprehensive collection of Zuma's most controversial and often contradictory public statements. With some 350 quotes collected along ten themes that define Zuma's personal beliefs, *Clever Blacks, Jesus and Nkandla* documents some of Zuma's most notorious moments. It aims to serve as both an easy guide to Zuma's personal philosophy and a reference point for some of the debates that have defined his political career. The quotes represent one of the fundamental fault lines that run through South African discourse today: a society trapped between its Third World realities and its much vaunted First World ambitions. In many ways, Zuma is the epicentre around which the subsequent debate has unfolded.
