*Ecological Sustainability for Non-timber Forest Products* Charlie M. Shackleton, Ashok K. Pandey, Tamara Ticktin, 2015-03-24 There is growing knowledge about and appreciation of the importance of Non timber Forest Products NTFPs to rural livelihoods in developing countries and to a lesser extent developed countries However there is also an assumption on the part of policy makers that any harvesting of wild animal or plant products from the forests and other natural and modified ecosystems must be detrimental to the long

term viability of target populations and species This book challenges this idea and shows that while examples of such negative impacts certainly exist there are also many examples of sustainable harvesting systems for NTFPs The chapters review and present coherent and scientifically sound information and case studies on the ecologically sustainable use of NTFPs They also outline a general interdisciplinary approach for assessing the sustainability of NTFP harvesting systems at different scales A wide range of case studies is included from Africa Asia and South America using plant and animal products for food crafts textiles medicines and cosmetics

**Ordered Estates** Hartnack, Andrew M.C., 2016-07-31 There is a growing body of work on white farmers in Zimbabwe Yet the role played by white women so called farmers wives on commercial farms has been almost completely ignored if not forgotten For all the public role and overt power ascribed to white male farmers their wives played an equally important although often more subtle role in power and labour relations on white commercial farms This soft power took the form of maternalistic welfare initiatives such as clinics schools orphan programmes and women s clubs mostly overseen by a farmer s wife Before and after Zimbabwe s 1980 independence these played an important role in attracting and keeping farm labourers and governing their behaviour After independence they also became crucial to the way white farmers justified their continued ownership of most of Zimbabwe s prime farmland This book provides the first comprehensive analysis of the role that farm welfare initiatives played in Zimbabwe s agrarian history Having assessed what implications such endeavours had for the position and well being of farmworkers before the onset of fast track land reform in the year 2000 Hartnack examines in vivid ethnographic detail the impact that the farm seizures had on the lives of farmworkers and the welfare programmes which had previously attempted to improve their lot

**Civil Society and the Party-state in Zimbabwe** Zenzo Moyo, 2024-08-21 The book utilises Gramsci s concepts of hegemony counter hegemony organic intellectuals and integral state to interrogate how modes of engagement between the state and civil society have contributed to a polarised polity in Zimbabwe and in turn how this has impacted democratisation processes This was achieved by analysing intra civil society interactions and state civil society relations which established deep polarised relationships that can be traced back to the liberation struggle It also interrogates ideologies that drive these polarised relations and how together with material benefits from donors and the party state these relations impact ordinary people s modes of existence One of the arguments that emerge from the book is that political polarisation in Zimbabwe has now morphed into an established political culture that has played a huge role in the retardation of democratic struggles It uses ideas of entangled modernities and travelling theory to cast doubt on the belief that civil society is the missing key in the democratisation of developing countries
