Primary English Curriculum Guide Christine Moorcroft, Ray Barker, 2013-11-26 First Published in 2001 The purpose of this curriculum guide is to help student teachers and newly qualified teachers to make a start on learning how to become competent teachers of English Despite the emphasis given in training courses to the teaching of English newly qualified teachers often feel underprepared for it and frequently mention their concerns about this These concerns can be partly explained by a general lack of confidence in this key area and partly by widespread media and political criticism of the teaching of literacy It is also because it is often difficult for a student to make the connection between observation of key teaching strategies and his or her own personal practice **The Times Index**, 2007 Indexes the Times and its supplements

Developing Readers in the Middle Years Elaine Millard, 1994 Are there developmental stages in reading response Can these be promoted or accelerated by classroom experience The debate about standards in reading has largely ignored such questions and focused on the methods used to introduce children to print in the early years of school Less attention has been given to ways of nurturing the habit once the first stages are past Elaine Millard explores how assumptions about what is pleasurable in reading set an agenda for the middle years which ignores crucial differences in children s reading habits particularly those related to gender She argues that the more advanced reading skills of analysis evaluation and critical response can be introduced to children at this stage but that they require the support of a classroom context that encourages cooperation and which builds on shared habits of reading
