20zimsec Economics Paper 1:

Zimbabwe H. Besada, 2011-01-03 Formerly one of Africa's most promising economies Zimbabwe has begun a process of economic reconstruction after decades of political turmoil and economic mismanagement. The advent of a national unity government in February 2009 launched a new but still tentative era of political stability. The government has a daunting political and economic agenda. Top priorities include restoring the rule of law, demonstrating fiscal responsibility and putting in place macroeconomic and structural reforms to win the confidence of domestic and international investors. An optimistic time frame for its socio-economic recovery is now estimated to be at least ten years. *Zimbabwe Picking Up the Pieces* chronicles the steps that led to the downturn of the Zimbabwean state and economy before assessing what can be done to resuscitate a once thriving society. Leading experts from and on the region explore the country's options on key governance issues from strengthening institutions to addressing food security to promoting private sector development to mobilizing donor country assistance. This collection offers a unique glimpse into a fragile state and the severe costs Zimbabweans have and will have to endure if there is to be any hope of recovery. **Zimbabwe's Economy** Kenneth Mahuni, James Zivanomoyo, Puruweti Siyakiya, Simba Mutsvangwa, 2025-02-17 This book traces the economic history of Zimbabwe from independence to the present day. Through a comprehensive historical examination it highlights the short-lived successes in the early years after independence and the dwindling colonial economy as well as the economic problems of the decades that followed. The authors identify crucial flaws in the country's economic policies and highlight several dilemmas in the implementation of policies that exacerbated the country's deep-seated structural problems. The book provides deep insights into the economic and social realities of post-colonial states in Africa and offers important lessons for other African countries.

The European Union and Global Development S. Gänzle, S. Grimm, D. Makhan, 2012-04-17 An assessment of the capacity of the EU to coordinate actors and policies with regards to global development. Space Fostering African Societies Annette Froehlich, 2021-02-22 This peer-reviewed book provides detailed insights into how space and its applications are and can be used to support the development of the full range and diversity of African societies as encapsulated in the African Union's Agenda 2063. Following on from Part 1 which was highly acclaimed by the space community it focuses on the role of space in supporting the UN Sustainable Development Goals in Africa but covers an even more extensive array of relevant and timely topics addressing all facets of African development. It demonstrates that while there have been significant achievements in recent years in terms of economic and social development which have lifted many of Africa's people out of poverty there is still a great deal that needs to be done to fulfill the basic needs of Africa's citizens and afford them the dignity they deserve. To this end space is already being employed in diverse fields of human endeavor to serve Africa's goals for its future but
