One More Thing

Now in its Second Edition, the first edition of this book attracted the following praise: I gave it five stars because it is full of information that I never expected to exist. I found the book concise and structured in a way that made it easy for me to get the information I needed. Easy to read, well illustrated, can't say much more than that. Worth the price. Grandsons were waiting for a help call, but I could manage without them for a change. Book is clear and very helpful indeed. A very helpful guide to get to grips with the Nexus 5. Very helpful information in one place. Well worthwhile. Very useful book. Well written with lots of answers if you get stuck. Recommended for those of us who find technology rather baffling.
