

Reinforcement Activity 2—Part A (Cont.)

An Accounting Cycle for a Corporation: Journalizing and Posting Transactions

Recording Transactions

The December 1 account balances for the general and subsidiary ledgers are given in the Working Papers.

INSTRUCTIONS

1. Journalize the following transactions completed during December of the current year. GDS offers sales terms of 2/15, n/30. The sales tax rate is 4%. Post the following transactions using journalized (J) transactions impacting the accounts receivable or accounts payable subsidiary ledgers, (C) transactions recorded in the general journal, and (D) cash payments entered in a general amount column of the cash payments journal. Source documents are abbreviated as follows: check, C; memorandum, M; purchase invoice, PI; receipt, R; sales invoice, SI; purchase summary, PS; debit memorandum, DM; credit memorandum, CM.
- Dec. 1. Paid cash to Riverbend Properties for rent, \$1,600.00, C436.

Science and Philosophy of Behavior William M. Baum, 2022-08-16 Rediscover the science and philosophy of behavior In *Science and Philosophy of Behavior Selected Papers* distinguished researcher W M Baum delivers an expansive collection of incisive papers setting out a new paradigm of thinking about behavior The book offers only articles that put forward a philosophical and theoretical framework for an effective natural science of behavior Quantitative analysis is largely avoided except for a paper on all things avoidance Organized into three parts the author explains the flow like nature of behavior and its link to evolution as well as descriptions of a pure form of behaviorism that correct some flaws in B F Skinner s seminal works The book also links behaviorism to anthropology in its final section Readers will also find Fulsome descriptions of the molar nature of behavior and why the molecular view is misguided Re imaginations of the concept of reinforcement including considerations of allocation induction and contingency Explorations of the links between behavior analysis and Darwinian evolutionary processes An essential critique and reorganization of behavior theory and philosophy *Science and Philosophy of Behavior Selected Papers* is a controversial fascinating and eye opening journey through a half century of transformational work in the field

Fundamentals of Accounting Robert M. Swanson, 1987 *Gle ACC Two 1st Year 2000* Donald J. Guerrieri, F. Barry Haber, William B. Hoyt, Robert E. Turner, 1999-04 Focuses on a business perspective by using examples from the business world to illustrate accounting concepts *Fundamentals of Accounting Course* Kenton E. Ross, 2004 This introductory accounting text presents a complete accounting cycle of a business organized as a corporation Topics include analyzing transactions journalizing posting petty cash financial statements and adjusting and closing entries Accounting concepts are introduced using a modern business with owners that students can relate to in each cycle

Century 21 Accounting Swanson, Melanie H. Ross, Hanson, Gilbert, 1994 Activity Anorexia W. Frank Epling, W. David Pierce, 2013-06-17 This volume provides researchers and clinicians with an insight into recent developments in activity anorexia Much of the basic information on the topic has come from animal literature the theory of activity anorexia is built on an animal model of self starvation rats placed on a single daily feeding run more and more over days stop eating and die of starvation Additionally experiments that for ethical or practical reasons could not be done with humans may be conducted with other animals The animal research is extending the understanding of biologically based reward mechanisms that regulate eating and exercise environment behavior interactions that affect anorexia and the biochemical changes that accompany physical activity and starvation Increasingly however the impact of physical activity on human anorexia is being directly investigated eight out of fourteen research chapters in this volume are based on human research Some researchers are interested in the impact of hyperactivity and caloric restriction on human reproductive function Other authors are investigating physically active subgroups of people considered to be at risk for anorexia Finally several clinician researchers suggest how physical activity and extreme dieting interact for anorexia nervosa patients Chapter authors were asked to present their views independent of the editors argument that when it is present physical activity is central to anorexia Many

of the contributors disagree with the editors about the details of activity anorexia. A few suggest that excessive physical activity is either incidental to or an epiphenomenon of anorexia. Most authors are however in accord with the view that physical activity reduces food consumption which further drives up activity that results in even less caloric intake. No matter what their perspective all contributors agree that hyperactivity frequently accompanies self starvation in humans and other animals. The end result is a lively book that provides a source of ideas for both researchers and practitioners.
