democratized to bring fruit to a relatively de centered process where images text and interviews could re conceptualize the modern Being from an admixture of modernist historical and pop roots that could express a greater moment in the human action The work includes discussions from scientists such as Swiss chemist Albert Hofmann rock stars such as Jerry Garcia and unconfirmed mystics such as Carlos Castaneda The primary focus of this work isn t literature per se but the literary imagination as it may correspond to greater wider and more impactful goals than the writing of 20th century fiction While there is some outreach that favors de centered models such as the Beat Generation the author s primary purpose is to assemble an anthology covering the study and quests for knowledge from as many sides as could power the relative 1960s countercultural movement
