Introduction

Introducing Vista through Windows Setup has always represented a challenge to Vista users. Before Vista, Vista's language support was limited to the Windows XP language pack and the Windows XP Service Pack 2 (SP2) language pack. The Vista language pack was not available until the Windows XP SP2 language pack was released. This meant that Vista users could not install the Vista language pack until the Windows XP SP2 language pack was released. This was a significant inconvenience for Vista users who wanted to use Vista in their native language.
