on today's most pressing economic issues **Beyond the Crises: Zimbabwe's Prospects for Transformation** Tendai Murisa, Tendai Chikweche, 2015-12-01 Over the past years few African countries have been the focus of discussions and analyses generating a vast array of literature as much as Zimbabwe. The socioeconomic and political crises since the turn of the century have deeply transformed the country from the ideals of a vibrant freshly independent nation just two decades earlier. These transformations have necessitated the call for the restructuring of Zimbabwean society, polity and economy. But this literature remains exclusively within the realm of academic thinking and theorising with no concerted effort to move beyond this by explicitly drawing out the policy implications. *Beyond the Crises: Zimbabwe's Prospects for Transformation* is a welcome addition to the academic and policy literature with a much broader and all embracing focus in terms of policy interventions. By focusing on different aspects of social and economic justice, Murisa and Chikweche go beyond initiating a broad discussion on these two key pillars of human development with a view to suggesting possible future directions of practical solutions and policy development for the attainment of inclusive social and economic justice for Zimbabweans.

Policy Solutions for Economic Growth in a Developing Country Nassir Ul Haq Wani, 2024-06-17 *Perspectives on Afghanistan's Trade and Development* offers a rich and varied policy analysis for those who wish to design a policy to bolster exports from Afghanistan and for academicians, researchers and students who wish to gain greater insight into this developing economy. **Why Mugabe Won** Stephen Chan, Julia Gallagher, 2017-06-09 This book examines the key events, personalities and wider socio-political context that led to Mugabe's victory in the 2013 Zimbabwean elections.

Contemporary Development Ethics from an African Perspective Beatrice Okyere-Manu, Stephen Nkansah Morgan, Ovet Nwosimiri, 2023-07-29 This book offers fresh academic insights, reflections, questions, issues and approaches to development ethics taking into account African values and ethics. Development ethics is an area of applied ethics that examines the moral issues involved in global social and economic transformation. While it is a relatively new discipline, there have been numerous scholarly publications on it from Western perspectives. However, only a few studies have focused on development ethics from the African perspective. To address this gap, the book seeks to answer critical questions such as: What does development mean to Africans? How can we measure development? Who gets to decide and what constitutes just development in Africa? With contributions from African scholars from diverse backgrounds, the book covers various development themes such as: Theories and approaches to development ethics in Africa; Environmental Ethics and African Development Ethics; Politics and African Development; Migration and African development; Gender Ethics and Socio-economic Development in Africa; Education Ethics and African development. It is an essential resource for researchers, lecturers and students interested in political philosophy and African culture studies. **Displacement Economies in Africa** Amanda Hammar, 2014-05-08 Large scale displacement, whether caused by war, state-related political or development projects, different forms of political violence, structural crisis or even natural disasters, evokes many stereotyped assumptions about those forcibly displaced or emplaced. At the same time

there is a problematic lack of attention paid to the diversity of actors strategies and practices that reshape the world in the face and chronic aftermath of dramatic moments of violent dislocation In this highly original volume based on empirical case studies from across sub Saharan Africa the authors reveal the paradoxical effects both intended and unexpected that displacement produces and that manifest themselves in displacement economies An important contribution to a topic of growing scholarly and policy interest
