Conference of Agriculture and Food Industry Muhamed Brka, Enisa Omanović-Miklićanin, Lutvija Karić, Vedad Falan, Almir Toroman, 2020-02-03 This book gathers the proceedings of the 30th Scientific Experts Conference of Agriculture and Food Industry held on September 26 27 2019 in Sarajevo Bosnia and Herzegovina It reports on the application of innovative technologies in food sciences and agriculture and covers research in plant and animal production agricultural economics and food production Further the book discusses key social and environmental issues and proposes answers to current challenges The conference was jointly organized by the Faculty of Agriculture and Food Sciences of the University of Sarajevo Bosnia and Herzegovina the Faculty of Agriculture of Ege University Turkey the Bosnia and Herzegovina Medical and Biological Engineering Society and the Faculty of Agriculture of the University of Belgrade Serbia The proceedings offer a timely snapshot of cutting edge multidisciplinary research and developments in modern agriculture As such they address the needs of researchers and professionals agricultural companies food producers and regulatory and food safety agencies

Regulating Genetically Modified Crops in View of Environmental Risks Ancui Liu, 2022-05-25 This book analyzes international and Chinese regulatory approaches addressing environmental risks that may be caused by GM crops and examines how China implements its international obligations in its policies and laws Using the legal doctrinal method the book discusses the precautionary principle and the public involvement principle as well as several legal measures at the international law level and in Chinese law It observes that legal principles and measures as provided for in China's GMO legal framework have generally implemented the international obligations regarding the prevention of environmental risks that may be caused by the cultivation of GM crops and related activities However the book argues that Chinese law lacks an explicit codification of the precautionary principle and the same is true with regard to public participation the regulatory

framework lacks specific obligations It concludes that future research should focus on the application and enforcement of the relevant Chinese legislation and that it is also important to investigate how the environmental risks that may be caused by new techniques such as genome editing techniques could be prevented given the experience gained by regulating the cultivation of GM crops and related activities *Climate Change Risks and Adaptation Linking Policy and Economics* OECD,2015-07-07 Building on the experience of OECD countries this report sets out how the latest economic evidence and tools can enable better policy making for adaptation

Climate Change Adaptation Kathy Lewis, Douglas Warner, 2020-12-02 The Anthropocene the time of humans Never has human influence on the functioning of the planet been greater or in more urgent need of mitigation Climate change the accelerated warming of the planet's surface attributed to human activities is now at the forefront of global politics The agriculture sector not only contributes to climate change but also feels the severity of its effects with the water carbon and nitrogen cycles all subject to modification as a result Crop production systems are each subject to different types of threat and levels of threat intensity There is however significant potential to both adapt to and mitigate climate change within the agricultural sector and reduce these threats Each solution must be implemented in a sustainable manner and tailored to individual regions and farming systems This Special Issue evaluates a variety of potential climate change adaptation and mitigation techniques that account for this spatial variation including modification to cropping systems Climate Smart Agriculture and the development and growth of novel crops and crop varieties Examining International Land Use

Policies, Changes, and Conflicts Hasnat, G. N. Tanjina, Hossain, Mohammed Kamal, 2020-11-06 Though conflicts continue to arise over land use and land cover changes the conversion of forest land to cropland or other land uses such as housing and

urban development have been on the rise in recent years. Decisions regarding land use and land cover influence climate change as well as various natural processes. While proper changes can minimize the effects and speed of climatic changes, the continued adverse changes may be accelerating the deterioration of the world's condition. *Examining International Land Use Policies: Changes and Conflicts* presents the latest research on the present status of land use and land cover changes throughout the world in order to determine appropriate land use policies that can protect earth's present and future condition. The findings of the studies investigate the conflicts behind the land tenure and land uses in different countries of the world and examines existing policies and the reasons behind changes in them. Ultimately, the book provides readers with knowledge on how land can be managed in a sustained manner, how landscape models are helpful for predicting and determining future land uses, how land can be managed with the best architectural measures, and how urban forestry is helpful for better environmental management and adapting or mitigating climate change effects. Land users, agriculturalists, urban planners, policymakers, government officials, researchers, academicians, and students looking to improve their understanding of this topic for better use of land in the future will find this book to be an asset to their current research.

New Directions in South-South Migration Jonathan Crush, Abel Chikanda, Sujata Ramachandran, 2025-04-03. This open access book offers a comprehensive understanding of South-South migration. It explores crucial migration themes such as migrant integration in urban areas, migration and rural transformation, urban migration policy, environment, migration corridors, and migrant precarity and survival, especially food security. It features contributions from eminent scholars in the Global South, namely Africa, Asia, Latin America, Caribbean, and the Middle East. Chapters in the book present theoretical perspectives and practical case studies, building on the results of detailed surveys, in-depth interviews, field observations, and other materials. The book highlights new findings and research outputs from recent and ongoing collaborative projects between multiple researchers from the Global South and North. The book is intended for researchers, graduate students, and teachers of geography, social policy, refugees, and migration studies, history, international development, and urban studies. This is an open access book.

Open data and smallholder food and nutritional security Addison, C., Jellema, A., Meijninger, W., 2015-06-30. This report was commissioned by CTA as a member of the GODAN initiative. It aims to provide a better understanding of the actual impact of the open data movement on the food and nutrition security of smallholders and highlight the areas of potential unfilled opportunity.

The Role of Innovation and Entrepreneurship in Economic Growth Aaron Chatterji, Michael J Andrews, Josh Lerner, Scott Stern, 2022-03-17 Innovation and entrepreneurship are ubiquitous today both as fields of study and as starting points for conversations among experts in government and economic development But while these areas on continue to attract public and private investments many measurements of their resulting economic growth including productivity growth and business dynamism have remained modest Why this difference Because not all business sectors are the same and the transformative gains of some industries have been offset by stagnation or contraction in others Accordingly a nuanced understanding of the economy requires a nuanced understanding of where innovation and entrepreneurship occur and where they matter Answering these questions allows for strategic public investment and the infrastructure for economic growth The Role of Innovation and Entrepreneurship in Economic Growth the latest entry in the NBER conference series seeks to codify these answers The editors leverage industry studies to identify specific examples of productivity improvements enabled by innovation and entrepreneurship including those from new production technologies increased competition new organizational forms and other means Taken together the volume illuminates whether the contribution of innovation and entrepreneurship to economic growth is likely to be concentrated be it selected sectors or more broadly

The Economics of Ecology, Exchange, and Adaptation Donald C. Wood, 2016-09-08 This book consists of three sections The first concentrating on ecology further explores the theme of climate change The second section focuses on exchange transactions and relations in a variety of situations and settings Finally papers in the third section share a concern with individual and group adaptations to certain conditions of life
