prayed to the rain God If he did not come on time we would be sunk The bank and the money lender would take our land and then there would be no resort but to starve or go to the city to survive or lend ourselves out in bonded labor to a more prosperous farmer This may sound shocking to people in well developed countries but this is still the sort of existence which is being led by people in many parts of the world Even today in this day of state of the art technology and technological development underdeveloped countries still follow obsolete agricultural practices which do not take into account the natural resources already around them And so famine has been a part of their lives for centuries So here are some rules which you are going to implement right now to make sustainable gardening possible
