Mathisen, Danuta Shanzer, 2016-04-08 One of the most significant transformations of the Roman world in Late Antiquity was the integration of barbarian peoples into the social cultural religious and political milieu of the Mediterranean world The nature of these transformations was considered at the sixth biennial Shifting Frontiers in Late Antiquity Conference at the University of Illinois at Urbana Champaign in March of 2005 and this volume presents an updated selection of the papers given on that occasion complemented with a few others These 25 studies do much to break down old stereotypes about the cultural and social segregation of Roman and barbarian populations and demonstrate that contrary to the past orthodoxy Romans and barbarians interacted in a multitude of ways and it was not just barbarians who experienced ethnogenesis or cultural assimilation The same Romans who disparaged barbarian behavior also adopted aspects of it in their everyday lives providing graphic examples of the ambiguity and negotiation that characterized the integration of Romans and barbarians a process that altered the concepts of identity of both populations The resultant late antique polyethnic cultural world with cultural frontiers between Romans and barbarians that became increasingly permeable in both directions does much to help explain how the barbarian settlement of the west was accomplished with much less disruption than there might have been and how barbarian populations were integrated seamlessly into the old Roman world      **The Rise and Fall of the Byzantine Empire** Monique Vescia, 2016-07-15 Growing on the heels of the collapse of the Roman Empire the Byzantine Empire was in some ways a continuation of its predecessor extending its history for another 1 000 years With a new capital at Constantinople however it also had a distinctly Eastern character of its own Readers are transported to Byzantium in this absorbing volume which recounts the history of this brilliant and articulate civilization as well as the many cultural and architectural achievements it spawned before falling to the Ottomans in 1453 Seminal events are covered in depth in the text and also highlighted in a timeline      *Understanding Leadership* Robert M McManus, Gamaliel Perruci, 2015-04-10 Lao Tzu Marx the Buddha Ibsen Machiavelli these are just a few of the world s great thinkers who have weighed in on the subject of leadership over the

centuries Yet the contemporary student of leadership often overlooks many of these names in favour of more recent theorists hailing from the social sciences Understanding Leadership An Arts and Humanities Perspective takes a different angle employing the works of the great philosophers authors and artists found in world civilization and presenting an arts and humanities perspective on the study of leadership The authors build their conceptual framework using The Five Components of Leadership Model which recognizes the leader the followers the goal the environmental context and the cultural values and norms that make up the leadership process Supporting the text are a wealth of case studies which reflect on works such as Ayn Rand s novella Anthem Eug ne Delacroix s painting Liberty Leading the People Charlie Chaplin s film Modern Times Athol Fugard s play Master Harold and the Boys Lao Tzu s poetic work Tao Te Ching and Anton n Dvo k s New World Symphony The authors also introduce studies from various world cultures to particularly illustrate the role cultural values and norms play in leadership This illuminating framework promotes the multidimensional thinking that is necessary for understanding and problem solving in a complex world Understanding Leadership An Arts and Humanities Perspective will be a valuable textbook for both undergraduate and postgraduate leadership students while leadership professionals will also appreciate the book s unique liberal arts and cultural approach

Prehistoric Europe Timothy Champion, 2016-06-16 The study of European prehistory has been revolutionized in recent years by the rapid growth rate of archeological discovery advances in dating methods and the application of scientific techniques to archaeological material and new archaeological aims and frameworks of interpretation Whereas previous work concentrated on the recovery and description of material remains the main focus is now on the reconstruction of prehistoric societies and the explanation of their development This volume provides that elementary and comprehensive synthesis of the new discoveries and the new interpretations of European prehistory After an introductory chapter on the geographical setting and the development of prehistoric studies in Europe the text is divided chronologically into nine chapters Each one describes with numerous maps plans and drawings the relevant archaeological data and proceeds to a discussion of the societies they represent Particular attention is paid to the major themes of recent prehistoric research especially subsistence economy trade settlement technology and social organization

Sinister and Righteous C. Riley Augé, 2024-12-01 In recent years archaeologists have begun to consider the potential for left and right positioning of elements in the material record to reveal cultural ideas about gender identity authority worldviews and belief systems This research demonstrates the ubiquitous but often overlooked occurrence of material culture meaningfully arranged according to deeply entrenched left and right concepts and is the first to bring together and expand upon these cultural ideologies Archaeological examples provide archaeologists with insight and guidance for recording analyzing and interpreting any left and right elements or associations present in the imagery features artifacts and landscapes of their study sites

**Empires of Antiquities** Billie Melman, 2020 Empires of Antiquities is a history of the rediscovery of the imperial civilizations of the ancient Near East in a modern imperial order that evolved

between the outbreak of the First World War and the decolonization of the British Empire in the 1950s It explores the ways in which near eastern antiquity was redefined and experienced becoming the subject of imperial regulation modes of enquiry and international and national politics Billie Melman follows a series of globally publicized spectacular archaeological discoveries in Iraq Egypt and Palestine which made antiquity material visible and accessible as never before She demonstrates that the new definition and uses of antiquity and their relations to modernity were inseparable from the emergence of the post war international imperial order transnational collaboration and crises the aspirations of national groups and collisions between them and the British mandates This study uniquely combines a history of the internationalization of archaeology and the rise of a new regime of antiquities under the oversight of the League of Nations and its institutions a history of British attitudes to and passion for near eastern antiquity and on the ground colonial policies and mechanisms as well as nationalist claims on the past It points at the centrality of the new mandate system Drawing on an unusually wide range of materials collected in archives in six countries as well as on material and visual evidence this volume weaves together imperial international and national histories and the history of archaeological discovery which it connects to imperial modernity
