Angela Merkel A Chancellorship Forged In Crisis Bloomberg Uk:

The Political and Economic Dynamics of the Eurozone Crisis James A. Caporaso, Martin Rhodes, 2016 This is the first book to provide a full and dispassionate account of the politics and economics of the Eurozone crisis focusing on the interlinked origins and impacts of the Euro Zone crisis and the policy responses to it The book is distinguished from existing research by its avoidance and rejection of the too often simplistic analysis that has characterized political media and regrettably some academic coverage and by its attempt to escape from the tyranny of day to day events and short term developments Each of the contributors identifies an important question and undertakes a careful empirical theoretically informed analysis that produces novel perspectives Together they seek to balance many of the existing accounts that have rushed to sometimes unwarranted conclusions concerning for example the locus of institutional power in European crisis management the power and centrality of particular member states notably Germany which has been attributed with hegemonic status the supposed entrapment of EU policy makers by an austerity ideology and the deep flaws that apparently afflict the solutions to the crisis put painstakingly in place such as Banking Union While it will be some time before the EU can put the crisis behind it and the dust finally settles on the revised institutional system that emerges *The Political and Economic Dynamics of the Eurozone Crisis* marks an important step towards a considered reflective analysis of the tumultuous events and developments of the crisis period

Dear Barack Claudia Clark, 2021-10-19 One of the great political friendships of the modern world as told through key moments that shaped the twenty first century Today we know US President Barack Obama and German Chancellor Angela Merkel as two of the world's most influential leaders together at the center of some of the biggest controversies and most impressive advancements of our time But while their friendship has been the subject of both scrutiny and admiration few know the full story Taking office at the height of the 2008 global recession Obama was keenly aware of the fractured relationship between the US and Europe And for her part Merkel was suspicious of the charismatic newcomer who had captivated her country Faced with the challenges of globalization the two often clashed over policy but as the first Black president and first female chancellor they shared a belief that democracy could uplift the world United by this conviction they would forge a complicated but inspiring partnership *Dear Barack* is a thoroughly researched document of the parallel trajectories that led to Obama and Merkel meeting on the world stage and the trials both personal and political that they confronted in office At times in the leaders own words the book details such events as Merkel's historic acceptance of the Presidential Medal of Freedom Russia's annexation of Crimea and the 2013 NSA spying scandal demonstrating the highs and lows of this extraordinary alliance A story of camaraderie at a global scale *Dear Barack* shows that it is possible for political adversaries to establish bonds of respect and even friendship in the service of the free world

Angela Merkel Alan Crawford, Tony Czuczka, 2013-08-05 Shortlisted for International Affairs Book of the Year in the Paddy Power Political Book Awards 2014 Angela Merkel was already unique when she became German chancellor

the first female leader of Europe's biggest economy the first from former communist East Germany and the first born after World War II Since 2010 the debt crisis that spread from Greece to the euro region and the world economy has propelled her to center stage making Merkel the dominant politician in the struggle to preserve Europe's economic model and its single currency Yet the Protestant pastor's daughter is often viewed as enigmatic and hard to predict a misreading that took hold as she resisted global pressure for grand gestures to counter the crisis Having turned the fall of the Berlin Wall to her advantage Merkel is trying to get history on her side again after reaching the fundamental decision to save the euro the crowning achievement of post war European unity Merkel has brought Europe to a crossroads Germany's economic might gives her unprecedented power to set the direction for the European Union's 500 million people What's at stake is whether she will persuade them to follow the German lead Angela Merkel A Chancellorship Forged in Crisis is the definitive new biography of the world's most powerful woman Delving into Merkel's past the authors explain the motives behind her drive to remake Europe for the age of globalization her economic role models and the experiences under communism that color her decisions For the first time in English Merkel is fully placed in her European context Through exclusive interviews with leading policy makers and Merkel confidants the book reveals the behind the scenes drama of the crisis that came to dominate her chancellorship her prickly relationship with the U S and admiration for Eastern Europe Written by two long standing Merkel watchers the book documents how her decisions and vision both works in progress are shaping a pivotal moment in European history

The Mighty And The Almighty Nick Spencer,2017-04-13 For a secular age we have a lot of religious politicians Theresa May Vladimir Putin Angela Merkel even Donald Trump all profess Christianity as did Obama Brown Sarkozy Bush and Blair before them Indeed it is striking how many Christian Presidents and Prime Ministers have assumed the global stage over recent years In spite of Alastair Campbell's oft and mis quoted line We don't do God it seems like we definitely do But how sincere is this faith Is not much of it simply window dressing for the electorate paste on haloes to calm the moral majority Conversely how dangerous is it If we elect our politicians to do our democratic will do we really want them praying to God for advice The Mighty and the Almighty looks at some of the biggest political figures of the past forty years from Thatcher and Reagan through Mandela and Clinton to May and Trump and looks at how they did God Did their faith actually shape their politics and if so how Or did their politics shape their faith And does it matter if it did In an age when religion is more important on the global stage than anyone would have predicted fifty years ago this book will tell you everything you want to know and some things you won't about how the Mighty get on with the Almighty

Empire of Democracy Simon Reid-Henry,2019-06-27 A dense narrative and a wealth of examples Literary Review Reid Henry narrates this story with elegance and gusto Washington Post Reid Henry conveys an important message Individual political action must become accountable to society's interests Kirkus Reid Henry's scholarship is impressive gathering a wide range of historical anecdotes and referencing a

diverse set of thinkers Publishers Weekly The first panoramic history of the Western world from the 1970s to the present day Empire of Democracy is the story for those asking how we got to where we are In this epic narrative of the events that have shaped our own times Simon Reid Henry shows how liberal democracy and Western history with it was profoundly reimagined when the postwar Golden Age ended As the institutions of liberal rule were reinvented a new generation of politicians emerged Thatcher Reagan Mitterrand Kohl The late twentieth century heyday they oversaw carried the Western democracies triumphantly to victory in the Cold War and into the economic boom of the 1990s But equally it led them into the fiasco of Iraq to the high drama of the financial crisis in 2007-8 and ultimately to the anti liberal surge of our own times The present crisis of liberalism enjoins us to revisit these as yet unscripted decades The era we have all been living through is closing out democracy is turning on its axis once again As this panoramic history poignantly reminds us the choices we make going forward require us first to come to terms with where we have been German-American Relations in the 21st Century Klaus Larres, Ruth Wittlinger, 2020-04-22 German American relations have become interesting again U S President Donald Trump's lukewarm policy toward Europe has ensured that the relationship between Berlin and Washington is once again regarded as an important field of scholarship within global politics And yet it was only a few years ago that German American relations seemed to take second place to transatlantic relations in general and the European Union EU USA relationship in particular The advent of Donald Trump as US President in January 2017 has made all the difference Trump's difficult personal relationship with German Chancellor Angela Merkel and his denigration of everything the Western world including the USA itself has stood for since 1949 have given a new significance to German American relations in practice and theory This volume offers an empirical and conceptual analysis of German American relations in the 21st century and highlights the serious and perhaps unprecedented challenges the two countries face at present The authors discuss a number of aspects of the current much more fragile state of German American relations from different perspectives This book was originally published as a special issue of the journal German Politics **Disorder** Helen Thompson, 2022-02-24 Getting to grips with the overlapping geopolitical economic and political crises faced by Western democratic societies in the 2020s The 21st century has brought a powerful tide of geopolitical economic and democratic shocks Their fallout has led central banks to create over 25 trillion of new money brought about a new age of geopolitical competition destabilised the Middle East ruptured the European Union and exposed old political fault lines in the United States Disorder Hard Times in the 21st Century is a long history of this present political moment It recounts three histories one about geopolitics one about the world economy and one about western democracies and explains how in the years of political disorder prior to the pandemic the disruption in each became one big story It shows how much of this turbulence originated in problems generated by fossil fuel energies and it explains why as the green transition takes place the long standing predicaments energy invariably shapes will remain in place Lieber Barack: Die außergewöhnliche Partnerschaft zwischen Angela Merkel und Barack Obama

Claudia Clark, 2021-11-19 US President Barack Obama und Bundeskanzlerin Angela Merkel sind zwei der einflussreichsten Führungspersönlichkeiten der Welt die gemeinsam im Zentrum einiger der größten Kontroversen unserer Zeit stehen. Doch obwohl ihre Freundschaft sowohl Gegenstand von Kritik als auch von Bewunderung ist, kennen nur wenige die ganze Geschichte. Lieber Barack ist eine Geschichte der Kameradschaft auf globaler Ebene und zeigt, dass es möglich ist, dass politische Gegner im Dienste der freien Welt Bande des Respekts und sogar der Freundschaft schmieden. Das Buch schildert Ereignisse wie Merkels historische Verleihung der Presidential Medal of Freedom, die Annexion der Krim durch Russland und den NSA Spionageskandal von 2013 und zeigt die Höhen und Tiefen dieser außergewöhnlichen Allianz. **The New York Times Index**, 2008
