time to challenge the status quo and embrace the potential of apprenticeships in tech healthcare finance and more which can provide a sustainable pathway to economic opportunity For decades college has been the only respectable way to access the world of work despite paralyzing tuition and a dire lack of practical skills that has left 40 percent of college graduates underemployed unfulfilled and struggling to repay student loan debt Education and workforce expert Ryan Craig explores how a modern apprenticeship system will allow students and job seekers to jump start their careers by learning while they earn ultimately leading to greater workforce diversity and geographic mobility With a deep dive into the history behind America s outdated college system Craig reveals The origins of the student debt crises and admissions scandals Why apprenticeships are an effective pathway to career opportunity What America can do to catch up with other nations making apprenticeship opportunities broadly available Where students and job seekers can go to land an apprenticeship Featuring a directory of US apprenticeship programs by industry and location Apprentice Nation is an accessible blueprint for a country where young Americans of all backgrounds can launch careers in a variety of in demand fields With just a few common sense changes to education and workforce development anapprentice nation will put the American Dream within reach for everyone

Advanced Environments, Tools, and Applications for Cluster Computing Dan Grigoras,Alex Nicolau,Bernard Toursel,Bertil Folliot,2003-08-01 Started by small group of well known scientists with the aim of sharing knowledge experiences and results on all aspects of cluster computing the initiative of a workshop on cluster computing received more attention after IFIP WG 10 3 and IEEE Romania Section accepted our request for sponsorship Moreover the application for a NATO ARW grant was successful leading to a greater interest in the workshop In this respect we have to say that we chose Romania in order to attract scientists from Central and Eastern European countries and improve the cooperation in the region in the field of cluster computing We had an extremely short time to organize the event but many people joined us and enthusiastically contributed to the process The success of the workshop is wholly due to the hard work of the organizing

committee members of the program committee key speakers speakers from industry and authors of accepted papers The workshop consisted of invited and regular paper presentations followed by discussions on many important current and emerging topics ranging from sheduling and load balancing to grids The key speakers devoted their time and efforts to presenting the most interesting results of their research groups and we all thank them for this All papers were peer reviewed by two or three reviewers
