Knowledge Governance Reasserting the Public Interest, Anna Célia Castro, Rainer Kattel, 2014-10-01 This book argues that the current international intellectual property rights regime led by the World Trade Organization WTO has evolved over the past three decades toward overemphasizing private interests and seriously hampering public interests in access to knowledge and innovation diffusion This approach concentrates on tangible and codified knowledge creation and diffusion in research and development R D that can be protected via patents and other intellectual property rules and regulations In terms of global policy initiatives however it is becoming increasingly clear that the WTO in particular is mostly a conflict resolution facility rather than a global governance body able to generate cooperation and steer international coordinated policy action At the same time rent extraction and profits streaming from legal hyperprotection have become pervasively important for firm strategies to compete in a globalized marketplace **Knowledge Governance Reasserting the Public Interest** offers a novel approach

knowledge governance in order to move beyond the current regime **Research Grants Index** National Institutes of Health (U.S.). Division of Research Grants,1968 *Books in Print Supplement* ,2002 The Dial Francis Fisher Browne,Scofield Thayer,Waldo Ralph Browne,1895 *How We Give Now* Lucy Bernholz,2023-08-15 From Go Fund Me to philanthropy the everyday ways that we can give our money our time and even our data to help our communities and seek justice In *How We Give Now* Lucy Bernholz shows that philanthropy is more than writing a check and claiming a tax deduction For most of us the non wealthy givers philanthropy can be a way of living our values and fully participating in society We give in all kinds of ways shopping at certain businesses canvassing for candidates donating money and making conscious choices with our retirement funds We give our cash our time and even our data to make the world a better place Bernholz takes readers on a tour of the often overlooked worlds of participatory philanthropy learning from a diverse group of forty resourceful givers Donating our digitized personal data is an emerging form of philanthropy and Bernholz describes safe equitable and effective ways of doing so giving genetic data for medical research through a nonprofit genetics organization rather than a commercial one for example or contributing photographs to an online archive like the Densho Digital Repository which documents America s internment of 120 000 Americans of Japanese descent Bernholz tells us to follow the money however when we re asked to add a dollar to our total at the cash register or when we buy a charity branded product it s more effective to give directly than to give while shopping Giving is a form of participation Philanthropy by the rest of us across geographies and cultural traditions begins with and builds on active commitment to our communities

Charrow,2010-07-15 The National Institutes of Health and the National Science Foundation together fund more than 40 billion of research annually in the United States and around the globe These large public expenditures come with strings including a complex set of laws and guidelines that regulate how scientists may use NIH and NSF funds how federally funded research may be conducted and who may have access to or own the product of the research Until now researchers have had little instruction on the nature of these laws and how they work But now with Robert P Charrow s *Law in the Laboratory* they have a readable and entertaining introduction to the major ethical and legal considerations pertaining to research under the aegis of federal science funding For any academic whose position is grant funded or for any faculty involved in securing grants this book will be an essential reference manual And for those who want to learn how federal legislation and regulations affect laboratory research Charrow s primer will shed light on the often obscured intersection of government and science *Canadiana* ,1979 **Catalogue of Copyright Entries** Library of Congress.
