Chris Mullins, 2007-03-06 *The Biogenesis of Cellular Organelles* represents a comprehensive summary of recent advances in the study of the biogenesis and functional dynamics of the major organelles operating in the eukaryotic cell. This book begins by placing the study of organelle biogenesis in a historical perspective by describing past scientific strategies, theories and findings and relating these foundations to current investigations. Reviews of protein and lipid mediators important for organelle biogenesis are then presented and are followed by summaries focused on the endoplasmic reticulum, Golgi, lysosome, nucleus, mitochondria and peroxisome. **New Headway** Liz Soars, 20?? **The British National Bibliography**

Arthur James Wells, 2007 **Education and Society in the Middle East and North Africa** Milton George, S. Sergio Saleem Scatolini, 2020-01-17 In the past the Middle East and the so-called Muslim world used to be beacons of learning and critical thought. Although historical variables such as conquest, internal conflict and colonization demoted their position on the global stage, changes are now in the offing. In these interesting times, a growing number of educators, thinkers and visionaries are trying both to find and to generate new approaches to the past, present and future of the region. This book is a collection of articles which reflect on various aspects related to education and society in the Middle East and North Africa, also known as the MENA region, their peoples and educational processes. It provides a platform for people to join the global conversation and to contribute to it with data which are relevant to regional concerns, research and practices. This is necessary because many of the theories and research findings which are still being used to understand the region were generated elsewhere and despite their lack of regional representativeness were generalized as the most trustworthy interpretive tools across the world. Hence, there is a need for the world to open up to the voices from the MENA region.
